

Script for conducting J2 Student Evaluation (FA, Academic Senate 2012)

You are being asked to participate in the evaluation of your instructor. Student evaluations are performed periodically as a regular part of the academic profession.

Your input is very important to your instructor and can provide valuable insight about the course and its activities. Please carefully consider your responses to the "Agree-Disagree" portion (Part A). For Part B, please provide your instructor with comments he or she can use to enhance learning in the classroom.

Do not sign your name on any of the evaluation forms; student evaluation is intended to be anonymous. The information will be compiled by a District employee and the Part B written responses will be shared with the instructor only after final grades have been submitted for the quarter.

Thank you for your participation.
