

FOOTHILL COLLEGE

BIOINFORMATICS

Associate In Science Degree & Certificate Curriculum Requirements

Thank you for your interest in the Bioinformatics program at Foothill College. The Biological and Health Sciences Division (BH), in collaboration with the Computer Technology and Information System (CTIS) Division is excited to offer this new certificate and/or degree program.

There is no formal application required to begin taking classes for this exciting new career. Enclosed you will find the program curriculum sheet, detailing the prerequisites and courses you will need to take to complete the certificate program. Please note, the program curriculum sheet is in a draft form, and is expected to be finalized this Fall Quarter. The Bioinformatics program offers great flexibility when scheduling the necessary classes, which is advantageous to those who plan to work while completing the coursework.

Please be advised that most CTIS courses are offered each quarter in the evenings, and BTEC 51A is only offered during the Fall Quarter each year, and BTEC 51B is only offered in the Winter quarter at this time.

If you have questions regarding course requirements, you may call:
Jerry Cellilo, the career counselor for this program 650-949-7423,
Karen Erickson, Biotechnology Director, 650-949-7412,
CTIS Division office, 650-949-7236 or
BH Division office, 650-949-7538.

Once again, thank you for your interest in this new and innovative career offered at Foothill College.

Sincerely,

Chuck Lindaur
Dean, Computer Technology &
Systems Health Sciences

Mary Ann Pavic
Dean, Biological & Information
