

Fall Quarter 2022 Club List

All information below includes the club name, purpose, Foothill Inter-Club Council (ICC) Representative (student leader), and advisor (Faculty/Staff/Admin). For membership requirements and meeting access please contact the club's ICC Representative.

ADHD in STEM Club

Purpose: We aim to provide a safe, non-judgmental space to support those with ADHD (with or without diagnoses) and other neurodiversities as well as to promote awareness and education for all students majoring in STEM disciplines. College can be particularly challenging for students with ADHD, especially when combined with STEM, and we hope to connect students with resources, coping skills, and general information focused on ADHD and mental health.

Clothing and Jewelry Club

Purpose: The purpose of the clothing and jewelry club is to foster a community of like-minded individuals that are equally as interested in buying, making, and selling clothing/jewelry as our Due to the COVID-19 pandemic it has been difficult to meet new people in general, especially those that share like-minded interests. Throughout high school we were part of a community that practiced the reselling of exclusive streetwear and sneakers. In the last year those friends have moved away and it has become increasingly difficult to find people who share these similar interests. With our extensive inventory of clothing and jewelry making tools, we would like to host workshops on campus mainly or off campus if necessary. We believe there is already a large community of these individuals and we would like to encapsulate and encourage their passion.

Dental Hygiene Club

Purpose: The dental hygiene program is a Bachelor of Science program with 24 students in each class. Admission is very competitive with many pre-requisites. It is a full-time program with little time for outside work. We are requesting funds to help serve Foothill College students that we see in our clinic and who could not otherwise afford the cost of dental hygiene care. These services include, but are not limited to, dental cleanings and x-rays.

Each quarter our clinic sees an average of 40 to 50 Foothill College students. The amount the clinic received last year, 2021-22 will be depleted by June. The clinic provides dental hygiene care for our students and communities in need of dental hygiene care but are unable to afford it because of their limited incomes. The ASFC has contributed the entire fee for student's dental hygiene services in the past, including cleanings and x-rays.

The amount per student varies from \$30 for a cleaning up to \$80 for cleaning and full mouth x-rays, while these services would cost a student over \$250 in a private dental practice. If our

budget is granted, the ASFC funds will benefit both the students who are unable to afford dental hygiene care and the students of the Dental Hygiene Program. The students at Foothill College make - up more than 25 % of the Foothill College's Dental Hygiene Clinic patient population.

Without ASFC's support our population of patients will diminish, and the students of Foothill College will be denied dental health care. The importance of this request is based on the historical fact that in years when students were required to pay half the fee, there was a 50 % decline in Foothill student patients. Although the fee is minimal students have expressed their inability to pay because of low incomes.

Sigma Phi Social Club

Purpose: We are Sigma Phi and we're seeking to register with Foothill College. The club began to take shape at the start of the 2021 spring quarter. Our members created this group out of a need to meet new people. We have established our identity, values, goals, work, and meeting spaces while increasing members and engagement. We have also connected with people over social media through Instagram and discord. Our members have since developed together and are prepared to take on more endeavors.

Here at Sigma Phi, we aim to foster a community of like-minded individuals that are ready to propel themselves forward through learning new skills and maintaining a confident academic standard. We feel, as Foothill students, the school is missing a sense of community due to the negative social impact the COVID-19 pandemic has drastically affected the ability to bond with our peers. Our goals consist of but are not limited to:

Establish a presence at Foothill that will foster a positive communal and social environment

Systematically incentivize profession and skill development, such as assisting in finding internships for members that align with their specific interests as well as the member-only workshops

Take part in routine club-wide workshops that include, but are not limited to car workshops, jewelry making, clothing, construction, and general team-building activities

Use this communal presence to encourage club members and student body incentives towards philanthropy with trash pickup days, monthly fundraisers on campus (pie a phi, fitness competitions, water fun days, etc), and car washes for funding and charity.

Encourage a sense of community by hosting social events both for the general student body and for club members

Enforce environmentally friendly habits such as aluminum can collection and proper composting

Maintain a club-wide basis GPA of 2.60

The presence of our club is mutually beneficial to the school because we fulfill a void of community that is not fulfilled by a Foothill. Most students we've talked with have all shared that they are looking to transfer as soon as they can. The most common reasons are missing out on common college experiences such as living in dorms and being able to join a fraternity or sorority. This club is designed to fill this void of a campus-related social life for those that feel this absence that has only been amplified by the Covid-19 pandemic.
