

College Curriculum Committee Meeting Agenda
Tuesday, April 20, 2021
2:00 p.m. – 3:30 p.m.
Meeting will be held virtually via ConferZoom

Item	Time*	Action	Attachment(s)	Presenter(s)
1. Minutes: March 16, 2021	2 min.	Action	#4/20/21-1	Kuehnl
2. Report Out from Division Reps	5 min.	Discussion		All
3. Public Comment on Items Not on Agenda (CCC cannot discuss or take action)	5 min.	Information		
4. Announcements a. New Course Proposals b. Notification of Proposed Requisites c. CORs for Update 2022-23 (Title 5 list) d. Foothill GE List for 2021-22 e. Pharmacy Technician & Sheet Metal Apprenticeship CA Approvals	5 min.	Information	#4/20/21-2-7 #4/20/21-8 #4/20/21-9 #4/20/21-10-11	CCC Team
5. Consent Calendar a. GE Applications	5 min.	Action	#4/20/21-12-13	Kuehnl
6. New Program Application: Cybersecurity CA	10 min.	2nd Read/ Action	#4/20/21-14	Kuehnl
7. New Program Application: IT Support CA		2nd Read/ Action	#4/20/21-15	Kuehnl
8. New Program Application: English as a Second Language for College and Careers (High-Intermediate) Noncredit Certificate		2nd Read/ Action	#4/20/21-16	Kuehnl
9. New Program Application: English as a Second Language for College and Careers (Advanced) Noncredit Certificate		2nd Read/ Action	#4/20/21-17	Kuehnl
10. Stand Alone Approval Request: R T 70B		2 min.	2nd Read/ Action	#4/20/21-18
11. Stand Alone Approval Request: D A 65	3 min.	1st Read	#4/20/21-19	Kuehnl
12. Stand Alone Approval Request: D A 66		1st Read	#4/20/21-20	Kuehnl
13. Stand Alone Approval Request: D A 200L		1st Read	#4/20/21-21	Kuehnl
14. Program Creation Process Ad Hoc Group	15 min.	1st Read	#4/20/21-22	Kuehnl
15. Guided Pathways Mapping Approval Process	15 min.	Discussion		Kuehnl
16. Local Apprenticeship AS Degree	15 min.	Discussion		Kuehnl
17. Good of the Order	5 min.			Kuehnl
18. Adjournment				Kuehnl

2020-2021 Curriculum Committee Meetings:

<u>Fall 2020 Quarter</u>	<u>Winter 2021 Quarter</u>	<u>Spring 2021 Quarter</u>
10/6/20	1/19/21	4/20/21
10/20/20	2/2/21	5/4/21
11/3/20	2/16/21	5/18/21
11/17/20	3/2/21	6/1/21
12/1/20	3/16/21	6/15/21

Standing reminder: Items for inclusion on the CCC agenda are due no later than one week before the meeting.

2020-2021 Curriculum Deadlines:

- ~~12/1/20~~ Deadline to submit courses to CSU for CSU GE approval (Articulation Office).
- ~~12/1/20~~ Deadline to submit courses to UC/CSU for IGETC approval (Articulation Office).
- ~~2/16/21~~ Deadline to submit local GE applications for 2021-22 catalog (Faculty/Divisions).
- 4/23/21 Curriculum Sheet updates for 2021-22 catalog (Faculty/Divisions).
- 6/1/21 Deadline to submit new/revised courses to UCOP for UC transferability (Articulation Office).
- 6/18/21 Deadline to submit all new courses and certain types of course updates for 2022-23 catalog—[see PDF for details](#) (Faculty/Divisions).
- 11/5/21 Deadline to submit certain types of course updates for 2022-23 catalog—[see PDF for details](#) (Faculty/Divisions).
- Ongoing* Submission of courses for C-ID approval and course-to-course articulation with individual colleges and universities (Articulation Office).

Distribution:

Micaela Agyare (LIBR), Chris Allen (Dean, APPR), Ben Armerding (LA), Rachelle Campbell (BH), Zachary Cembellin (PSME), Anthony Cervantes (Dean, Enrollment Services), Mark Ferrer (SRC), Owen Flannery (KA), Valerie Fong (Interim Dean—LA), Marnie Francisco (PSME), Evan Gilstrap (Articulation Officer), Hilary Gomes (FA), Allison Herman (LA), Kurt Hueg (Administrator Co-Chair), Maritza Jackson Sandoval (CNSL), Eric Kuehnl (Faculty Co-Chair), Andy Lee (CNSL), Debbie Lee (Acting Dean—FA & KA), Laurence Lew (BSS), Kristy Lisle (VP Instruction), Don Mac Neil (KA), Kathryn Maurer (AS President), Kent McGee (Evaluations), Michelle McNeary (LA), Ché Meneses (FA), Brian Murphy (APPR), Teresa Ong (AVP Workforce), Ron Painter (PSME), Kas Pereira (BSS), Katy Ripp (KA), Lisa Schultheis (BH), Ram Subramaniam (Dean—BH & PSME), Mary Vanatta (Curriculum Coordinator), Priya Vasu (ASFC), Anand Venkataraman (PSME)

**College Curriculum Committee
Meeting Minutes
Tuesday, March 16, 2021
2:00 p.m. – 3:30 p.m.
Meeting held virtually via ConferZoom**

Item	Discussion
1. Minutes: March 2, 2021	Approved by consensus.
2. Report Out from Division Reps	<p>Speaker: All PSME: Working on curriculum sheets.</p> <p>Library: Rep asked group to remind students to return any checked-out materials to Sunnyvale location by end of quarter; will begin charging fines again.</p> <p>Language Arts: Working on curriculum sheets. English dept. prompted by Guided Pathways to reflect on entire literature grid, and focus on equity language. Discussing seat counts. Kuehnl noted many discussions occurring about seat counts, which hasn't been brought back to CCC for additional discussion due to Faculty Association (FA) component—CCC Team trying to figure out how to have meaningful conversation at CCC; likely requires including other stakeholders (e.g., FA).</p> <p>Kinesiology: Working on curriculum sheets. Creating new course on meditation. Updating SLOs.</p> <p>Fine Arts: No updates to report.</p> <p>Counseling: Updating CRLP 71: updating content, changing from P/NP to letter grade, hoping to get course approved as UC transferable.</p> <p>BSS: No updates to report.</p> <p>Bio Health: No updates to report.</p> <p>Apprenticeship: Working on curriculum sheets.</p> <p>Articulation: Attended Region 4 meeting on Friday; discussed Ethnic Studies and IGETC. Still don't know what IGETC is planning—might be adding new Area 7 (similar to new CSU GE Area F) or adding requirement to existing Area 4. Likely won't know final decision until late May or June, which makes it tricky for our catalog publication deadline.</p> <p>Vanatta asked the group about timing of Title 5 list—list is almost ready to share, but wants to be mindful of finals week, spring break, etc., and doesn't want to pile on more work for those updating curriculum sheets. On the other hand, does not want to delay anyone who wants to get started. PSME rep suggested sharing it when it's ready, and reps can decide when to forward to faculty; will allow them to choose when they want to start working on their updates. Vanatta will share the list by the end of the week.</p> <p>Hueg commented on seat count topic, agreeing it would be useful for FA to be involved in discussion at CCC, as topic is related to working conditions. Mentioned proposal to drop 50 seat count classes to 40 (and 40 to 35), and to leave all others as-is—FA will be discussing with district over next few months. Noted several proposals came forward during recent negotiations. Kuehnl asked if enrollment minimums would be affected—Hueg believes <i>de</i></p>

	<p><i>facto</i> minimum of 20 will stay the same. Added that FA proposal intends that no classes will be cut as a result; part of negotiations. Kuehnl asked if proposal is public, for reps to be able to review—it was a verbal proposal. D. Lee believes it was mentioned in recent FA Newsletter.</p>
3. Public Comment on Items Not on Agenda	No comments.
4. Announcements a. New Course Proposal b. Curriculum Sheet Deadline for 2021-22 c. Spring Plenary Resolutions	<p>Speakers: CCC Team The following proposal was presented: CHEM 81. Please share with your constituents. No comments.</p> <p>This year's deadline will be Friday, April 23rd—sheets must be approved by division CC and submitted to Vanatta in CourseLeaf. As with previous years, even if no changes being made to sheet, still need to submit.</p> <p>Resolutions packet was attached as info item; will be discussed at upcoming Area meetings. Reach out to Kuehnl, Kathryn Maurer, or Isaac Escoto with any questions or feedback.</p>
5. Consent Calendar a. GE Application	<p>Speaker: Eric Kuehnl The following GE application was presented: Area I—KINS 5. No comments.</p> <p>Motion to approve M/S (Venkataraman, Cembellin). Approved.</p>
6. Addition to Credit by Examination List: KINS 16A	<p>Speaker: Eric Kuehnl Kinesiology has approved this course as available for credit by examination. No comments.</p>
7. Changes to Course Families: Art Dept. (Fine Arts & Communication)	<p>Speaker: Eric Kuehnl Second read of changes to course families for Art dept. courses, for 2021-22 catalog. No comments.</p> <p>Motion to approve M/S (Meneses, Herman). Approved.</p>
8. New Program Application: Cybersecurity CA	<p>Speaker: Eric Kuehnl First read of new Cybersecurity Certificate of Achievement. Ong noted that, on both this and IT Support CA, narrative and LMI don't list the same TOP Code—Vanatta will follow up with faculty to confirm correct TOP Code.</p> <p>Second read and possible action will occur at next meeting.</p>
9. New Program Application: IT Support CA	<p>Speaker: Eric Kuehnl First read of new IT Support Certificate of Achievement. <i>See item 8 for comment.</i></p> <p>Second read and possible action will occur at next meeting.</p>
10. New Program Application: English as a Second Language for College and Careers (High-Intermediate) Noncredit Certificate	<p>Speaker: Eric Kuehnl First read of new English as a Second Language for College and Careers (High-Intermediate) Noncredit Certificate. No comments related to program.</p> <p>Language Arts rep asked when temporary program creation process will be re-evaluated—Kuehnl noted discussions are scheduled to occur soon, and CCC will be involved in drafting new process. Rep pointed out that many new programs coming to CCC don't receive any feedback from governance groups, and wondered how effective this part of the process is. Kuehnl mentioned timing, as some groups only meet once a month, but we don't want to delay programs from moving forward. D. Lee mentioned resources aspects of a program, in addition to curriculum aspects, and wondered how these will work in conjunction. Pointed out that program applications usually state no new resources required, but faculty do need to teach the classes, which is a resource. Kuehnl noted many new programs use courses that are already being offered by existing faculty, but doesn't know how this may affect resources. Agreed that including Revenue & Resources group (R&R)</p>

	<p>is important.</p> <p>Lisle emphasized importance of faculty working closely with division dean, AVP Instruction, and VP Instruction, to determine feasibility of running new program or course, since R&R doesn't necessarily have the knowledge specific to the dept./division. Noted such conversations can be difficult, but are necessary to set expectations. Library rep pointed out program applications usually state no requests for additional library resources. Other Language Arts rep noted temporary process created when governance structure was quite new, and was based on predictions related to roles of governance groups. Added that the step of sending program to various groups also important for information sharing purposes. Kuehnl noted that we have a flexible timeline of allowing for new program proposals throughout the year; other colleges (e.g., De Anza) require proposals be submitted in fall, which allows more time for feedback/review. PSME rep pointed out that two-week timeframe is a minimum, and nothing is stopping faculty from allowing governance groups more time to respond, if they want to wait for feedback. D. Lee summarized reps' comments, as well as feedback heard from governance groups, as need for clarity and guidelines for everyone involved.</p> <p>Maurer mentioned upcoming planning meeting; hopes workgroup will be created, and would like CCC to take lead on drafting new process. Hueg agreed with Lisle re: importance of conversation with dean about funding of new program, before sharing with governance groups. Lisle mentioned can be tough for governance groups to provide feedback, since intimate knowledge of discipline courses (e.g., scheduling concerns) necessary.</p> <p>Second read and possible action will occur at next meeting.</p>
<p>11. New Program Application: English as a Second Language for College and Careers (Advanced) Noncredit Certificate</p>	<p>Speaker: Eric Kuehnl First read of new English as a Second Language for College and Careers (Advanced) Noncredit Certificate. No comments.</p> <p>Second read and possible action will occur at next meeting. No comments specific to program.</p>
<p>12. Stand Alone Approval Request: R T 70B</p>	<p>Speaker: Eric Kuehnl First read of Stand Alone Approval Request for R T 70B. Will be permanently Stand Alone. No comments.</p> <p>Second read and possible action will occur at next meeting.</p>
<p>13. Guided Pathways Mapping Approval Process</p>	<p>Speaker: Eric Kuehnl Guest presenters: Isaac Escoto and Fatima Jinnah. Jinnah presented intro to Guided Pathways (GP) mapping at previous meeting; today's discussion about process for formal approval of Program Maps. Escoto shared current structure for GP: steering committee within Equity & Education Council (E&E), comprised of four teams. E&E has discussed operational aspect of approving Maps and would like CCC to be involved in determining steps, as Maps are related to curriculum.</p> <p>Jinnah explained mapping process. Counseling faculty drafts Map and sends to dept. chair of the program. Chair meets with GP team (may also include other dept. faculty), and edits may be made. Map then shared with all faculty in dept. for feedback; chair notifies GP team when Map has been approved at dept. level—this is where the process has stopped. Initially, plan was for E&E to review/approve all Maps, but E&E would like CCC to weigh in on determining final approval process. Escoto shared sample Map; Jinnah explained that courses come from curriculum sheet and GE pattern, and if there's space for electives the faculty determine what those should be. Escoto emphasized that many sets of eyes are on Map before it gets to</p>

	<p>the point that it's ready for formal approval. Language Arts rep believes it would be appropriate for division CC to approve Map, similar to process for curriculum sheets; asked Escoto and Jinnah their thoughts on which groups to include as FYI. Escoto believes important to at least share Map as info item to CCC because of division CC structure; for example, if another division's course is listed on Map, would be opportunity for visibility.</p> <p>Jinnah noted these Maps are round one, for current academic year—will need to edit Maps for upcoming year. Maps will be put in Canvas, to allow for transparency across depts./divisions. Once all Maps have been created, can have broader conversations across campus. Agreed with Escoto that info item to CCC likely sufficient for Maps, but round two will include meta-majors, which may require change in approval process. PSME rep pointed out that curriculum sheets don't come to CCC as info items, but do go through dean and division CC, not just dept. Believes same would be good for Maps, and agreed that info item to CCC would be good for visibility. Escoto mentioned recent discussions about Maps being created for pedagogical reasons vs. scheduling concerns, with consensus ultimately around pedagogy. Other Language Arts rep mentioned English dept.'s recent conversations and finding that other depts. requiring English courses, which affects scheduling and has prompted them to reach out to those other depts. Would like to process for Maps to allow cross-dept. communication.</p> <p>Escoto noted differences in how each division CC operates and communicates with colleagues, and need to envision how approval could look at the division CC level. PSME rep asked about deadlines related to catalog, or if approval would be ongoing throughout the year. Jinnah noted that other colleges have deadlines around the catalog, but this hasn't been determined yet for Foothill. Current Maps will not be ready for publication in upcoming catalog; plan is for next year's updated Maps to be ready in time to be in catalog. Hueg mentioned importance of scheduling component, and need to ensure classes will be available for students, especially courses that haven't been regularly offered but which students need to complete program requirements. Jinnah suggested coming up with approval process to use immediately for this year, then perhaps building on that to determine process for next year; as soon as Maps approved for this year, editing will begin on next year's Maps. Fong asked if there will be Maps for the learning communities—not at this time; right now, mapping ADTs, AA/AS degrees, and CAs. Does not mean learning communities won't be included in future; planning to include integrated student support, hopefully with meta-majors. Fong noted certain learning communities require specific literature classes to be offered during specific quarters.</p> <p>Escoto mentioned challenge in creating Maps, as they cannot be everything for everyone—hope is for Maps to be helpful for most people, but will always be unique situations for certain students. Asked if the reps would like to bring topic back to constituents for discussion. Noted that GP funding ends in June, 2022, but hopes this work will continue. Kuehnl would like CCC to formally decide where we'd like approval to happen (e.g., division CCs, depts., etc.). Discussion will continue at next meeting, with hope to make a formal decision.</p>
<p>14. Good of the Order</p>	<p>Language Arts rep asked if program creation process could be agendized for next meeting. Kuehnl suggested determining GP process first, which could inform program process—and because it is more urgent—but agreed with need to agendize program process soon.</p>
<p>15. Adjournment</p>	<p>3:31 PM</p>

Draft Minutes, March 16, 2021

Attendees: Micaela Agyare (LIBR), Chris Allen (Dean, APPR), Ben Armerding (LA), Zach Cembellin (PSME), Anthony Cervantes (Dean, Enrollment Services), Isaac Escoto (CNSL), Owen Flannery (KA), Valerie Fong (Acting Dean, LA), Marnie Francisco (PSME), Evan Gilstrap (Articulation Officer), Hilary Gomes (FA), Allison Herman (LA), Kurt Hueg (Administrator Co-Chair), Maritza Jackson Sandoval (CNSL), Fatima Jinnah (CNSL), Eric KuehnI (Faculty Co-Chair), Andy Lee (CNSL), Debbie Lee (Acting Dean, FA & KA), Laurence Lew (BSS), Kristy Lisle (VP Instruction), Don Mac Neal (KA), Kathryn Maurer (AS President), Ché Meneses (FA), Brian Murphy (APPR), Teresa Ong (AVP Workforce), Ron Painter (PSME), Kas Pereira (BSS), Ram Subramaniam (Dean, BH & PSME), Mary Vanatta (Curriculum Coordinator), Priya Vasu (ASFC), Anand Venkataraman (PSME)

Minutes Recorded by: M. Vanatta

Course Change Request

New Course Proposal

Date Submitted: 02/03/21 1:59 pm

Viewing: **D A F067. : RADIATION SAFETY COURSE**

Last edit: 03/25/21 10:38 am

Changes proposed by: Cara Miyasaki (10538632)

3. Activation

Course Proposal Form

Faculty Author: Cara Miyasaki

Effective Term: Summer 2022

Subject: Dental Assisting (D A) Course Number: F067.

Department: Dental Assisting (D A)

Division: Biological and Health Sciences (1BH)

Units: 1.5

Hours: 1 hour lecture and 2 hours lab

Course Title: RADIATION SAFETY COURSE

Short Title:

Approval Path

1. 02/25/21 8:49 pm
Lisa Schultheis (schultheislisa):
Approved for 1BH Curriculum Rep
2. 03/25/21 10:40 am
Mary Vanatta (vanattamary):
Approved for Curriculum Coordinator

Proposed Transferability: CSU Only

Proposed Description and Requisites: This course covers the principles of dental radiology. Topics include theory and techniques, operation of the x-ray machine, biological effects, safety practices, and the practical application of utilizing appropriate infection control while exposing, processing, mounting, and evaluating intraoral dental images.

Proposed Discipline: Dental Technology

To which Degree(s) or Certificate(s) would this course potentially be added?
Stand Alone temporarily, then part of a Certificate of Achievement

Are there any other departments that may be impacted from the addition of this course?

No

Comments & Other Relevant Information for Discussion:

This course will be part of a series of courses for the dental assisting apprenticeship pathway. We will not apply for program accreditation from the Commission on Dental Accreditation, however, it will follow the Dental Board of California's work experience guidelines to apply for a California dental assisting license (Registered Dental Assistant).

Effective Term Summer 2022

Subject English (ENGL) Course Number F012A

Department English (ENGL)

Division Language Arts (1LA)

Units 4

Hours 4 hours lecture

Course Title SURVEY OF LITERATURE OF THE BLACK PANTHER PARTY

Short Title

Proposed UC/CSU

Transferability

Proposed Description and Requisites: A study, exploration, and close examination of literature related to, and inspired by the Black Panther Party for Self Defense, which was founded in Oakland, California, in 1966. Literature from the organization's inception, to present-day, including mission statement, biographies, novels, interviews, documentaries, government documents that include allegations of criminal violations, Constitutional references, and online dialogue. Subsequent resulting literature related to past and current social concerns such as race dialogue, BLM, 1st and 2nd Amendment rights, as well as film productions, and the BPP's continuing impact on popular culture.

Proposed Discipline English

To which Degree(s) or Certificate(s) would this course potentially be added?
English AA and English ADT

Are there any other departments that may be impacted from the addition of this course?
No

Course Proposal Form

Faculty Author Jeffrey Bissell

Effective Term Summer 2022

Subject Kinesiology (KINS) Course Number F049.

Department Kinesiology (KINS)

Division Kinesiology and Athletics (1PE)

Units 3

Hours 3 hours lecture

Course Title MANAGING PHYSICAL STRESS

Short Title

Proposed UC/CSU

Transferability

Proposed Description and Requisites: Managing Physical Stress is an introduction to physical techniques that effectively relieve stress related physical problems through the lens of Kinesiology. Students will be exposed to information on how lifestyle, environment and society effects stress and the ability to successfully cope with it. Students will develop and implement a personal stress reduction program using physical activities including but not limited to massage, meditation, breathing exercises, mindfulness, aerobic exercises and pain control techniques.

Proposed Kinesiology (KINS)

Discipline

To which Degree(s) or Certificate(s) would this course potentially be added?

PHED General Education Degree

Are there any other departments that may be impacted from the addition of this course?

No

Course Proposal Form

Faculty Author	Eric Kuehnl		
Effective Term	Summer 2022		
Subject	Music Technology (MTEC)	Course Number	F057C
Department	Music Technology (MTEC)		
Division	Fine Arts and Communication (1FA)		
Units	4		
Hours	3 Hours Lecture, 3 Hours Lab		
Course Title	MUSIC COMPOSITION FOR FILM & TV		
Short Title			

Approval Path

- 03/12/21 4:20 pm
Hilary Gomes (gomeshilary):
Approved for 1FA Curriculum Rep
- 03/16/21 1:48 pm
Mary Vanatta (vanattamary):
Approved for Curriculum Coordinator

Proposed Transferability CSU Only

Proposed Description and Requisites: Creative and technical aspects of composing music for film and television. Basic overview of modern composition and orchestration techniques for strings, brass, woodwinds, and percussion. Technical aspects of scoring using a digital audio workstation, virtual instruments, and MIDI. Generating a notated score for musicians to perform in a recording session. Analysis of historically significant film and television scores. Students will score several visual sequences featuring different types of dramatic content.

Proposed Discipline Commercial Music

To which Degree(s) or Certificate(s) would this course potentially be added?
AA Degree in Music Technology

Are there any other departments that may be impacted from the addition of this course?
No

Comments & Other Relevant Information for Discussion:

This course will complete the three-course sequence of courses in audio post-production, including the Sound Design for Film & Video (MTEC57A) and Surround Sound Production (MTEC57B) courses .

Effective Term Summer 2022

Subject Music Technology (MTEC) Course Number F090A

Department Music Technology (MTEC)

Division Fine Arts and Communication (1FA)

Units 2

Hours 1 Hours Lecture, 3 Hours Lab

Course Title MUSIC TECHNOLOGY ENSEMBLE

Short Title

Proposed Transferability CSU Only

Proposed Description and Requisites: Select group performing varied literature in contemporary styles including pop, rock, hip-hop, metal, and jazz. Designed to develop the performing skills needed by musicians in a studio recording environment. Open by audition to all students. May be repeated up to six times.

Proposed Discipline Commercial Music

To which Degree(s) or Certificate(s) would this course potentially be added?
AA in Music Technology

Are there any other departments that may be impacted from the addition of this course?

No

Comments & Other Relevant Information for Discussion:

Repeatability regulations (2012): <https://www.asccc.org/content/repeatability-dealing-new-regulations>

Most 4-year degrees in Music Tech are part of a general music degree. A common problem we run into with transfer students is that they don't have any ensemble credits. This class will solve that problem by allowing MTEC students who plan to transfer to play in an ensemble for up to 6 quarters.

Course Proposal Form

Faculty Author Teresa Zwack

Effective Term Summer 2022

Subject Non-Credit: Basic Skills (NCBS) Course Number F448A

Department Mathematics (MATH)

Division Physical Sciences, Mathematics & Engineering (1PS)

Units 0

Hours 2.5 hours lecture

Course Title JUST-IN-TIME SUPPORT FOR MATH 48A

Short Title SUPPORT FOR MATH 48A

Proposed Transferability None

Proposed Description and Requisites: A just-in-time approach to the core prerequisite skills, competencies, and concepts needed in Precalculus I. Intended for students majoring in science, technology, engineering, and mathematics who are concurrently enrolled in MATH 48A at Foothill College. Topics include: a review of computational skills developed in beginning and intermediate algebra, including factoring, graphing linear equations, solving absolute value equations and inequalities, analyzing functions, including quadratic functions.

Proposed Discipline Mathematics

To which Degree(s) or Certificate(s) would this course potentially be added?
none

Are there any other departments that may be impacted from the addition of this course?
No

Comments & Other Relevant Information for Discussion:

This class is a noncredit option for students who need to take Math 48A with support. So students will be able to choose Math 248A or this noncredit class depending on their needs and will be taught in the same class and with instructor as their Math 48A class.

FOOTHILL COLLEGE GENERAL EDUCATION & GRADUATION REQUIREMENTS

The Foothill College general education (GE) pattern is designed to ensure that the student meets the four institutional/general education student learning outcomes:

- 1. Communication:** Demonstrate analytical reading and writing skills, including evaluation, synthesis and research; deliver focused and coherent presentations; and demonstrate active, discerning listening and speaking skills in lectures and discussions.
- 2. Computation:** Demonstrate complex problem-solving skills, technology skills, computer proficiency and decision analysis through synthesis and evaluation; apply mathematical concepts and reasoning; and analyze and use numerical data.
- 3. Creative, Critical & Analytical Thinking:** Demonstrate judgment, decision-making skills and intellectual curiosity; demonstrate problem-solving skills through analysis, synthesis and evaluation; develop creativity and aesthetic awareness; conduct research methodology; and identify and respond to a variety of learning styles and strategies.
- 4. Community/Global Consciousness & Responsibility:** Demonstrate social perceptiveness, including citizenship, community service, cultural awareness, empathy, ethics, interpersonal skills, personal integrity, respect, self-esteem and sensitivity; and exhibit interest in and pursuit of lifelong learning.

Completion of the Foothill College general education pattern requires that students successfully earn a minimum of 30 units from the courses listed below, with at least one course in humanities, English, natural sciences (with laboratory), social and behavioral sciences, communication and analytical thinking, United States cultures and communities, and two courses in lifelong learning from two different academic departments. Courses may only be used in one area.

Code	Title	Units

MUS 7	CONTEMPORARY MUSICAL STYLES: ROCK, POP & JAZZ	4	THTR 26	INTRODUCTION TO FASHION HISTORY & COSTUME DESIGN	4
			II. English		
			ENGL 1A	COMPOSITION & READING	5
			or ENGL 1AH	HONORS COMPOSITION & READING	
			ENGL 1S	INTEGRATED COMPOSITION & READING	8
			& ENGL 1T	and INTEGRATED COMPOSITION & READING	
			Additionally, students who complete the major requirements for the Apprenticeship - Plumbing Technology program will satisfy Area II.		

III. Natural Sciences (with Laboratory)

ANTH 1 & 1L or ANTH 1H & 1HL	INTRODUCTION TO PHYSICAL ANTHROPOLOGY and PHYSICAL ANTHROPOLOGY LABORATORY HONORS INTRODUCTION TO PHYSICAL ANTHROPOLOGY and HONORS PHYSICAL ANTHROPOLOGY LABORATORY	5
ANTH 13 & 13L	INTRODUCTION TO FORENSIC ANTHROPOLOGY and FORENSIC ANTHROPOLOGY LABORATORY	5
ASTR 10A & ASTR 10L	GENERAL ASTRONOMY: SOLAR SYSTEM and ASTRONOMY LABORATORY	6
ASTR 10B & ASTR 10L or ASTR 10BH & ASTR 10L	GENERAL ASTRONOMY: STARS, GALAXIES, COSMOLOGY and ASTRONOMY LABORATORY HONORS GENERAL ASTRONOMY: STARS, GALAXIES, COSMOLOGY and ASTRONOMY LABORATORY	6
BIOL 9 & 9L	ENVIRONMENTAL BIOLOGY and ENVIRONMENTAL BIOLOGY LABORATORY	5
BIOL 10	GENERAL BIOLOGY: BASIC PRINCIPLES	5
BIOL 13	MARINE BIOLOGY	5
BIOL 14	HUMAN BIOLOGY	5
BIOL 15	CALIFORNIA ECOLOGY/NATURAL HISTORY	5
BIOL 41	MICROBIOLOGY	6
CHEM 1A or CHEM 1AH	GENERAL CHEMISTRY HONORS GENERAL CHEMISTRY	5
CHEM 9	CHEMISTRY OF COOKING	5
CHEM 25	FUNDAMENTALS OF CHEMISTRY	5
CHEM 30A	SURVEY OF INORGANIC & ORGANIC CHEMISTRY	5
GEOG 1	PHYSICAL GEOGRAPHY	5
PHYS 2A	GENERAL PHYSICS	5
PHYS 4A	GENERAL PHYSICS (CALCULUS)	6
PSE 20	INTRODUCTION TO PHYSICAL SCIENCE	5

Additionally, students who complete the major requirements for the Apprenticeship - Plumbing Technology program will satisfy Area III.

IV. Social and Behavioral Sciences

ANTH 2A or ANTH 2AH	CULTURAL ANTHROPOLOGY HONORS CULTURAL ANTHROPOLOGY	4
ANTH 2B	PATTERNS OF CULTURE	4
ANTH 3	WORLD PREHISTORY: THE RISE & FALL OF EARLY CIVILIZATIONS	4

Additionally, students who complete the major requirements for the Apprenticeship - Plumbing Technology program will satisfy Area VII.

Minimum proficiency: ENGL 1A or ENGL 1AH or ENGL 1S and ENGL 1T; MATH 105¹ or MATH 180 or any MATH course approved for Foothill GE Area V, Communication and Analytical Thinking.

¹ Intermediate Algebra or equivalent means MATH 105 or completion of a higher-level course with a grade of "C" or better.

It is imperative to note that the Foothill College general education pattern is only appropriate for students pursuing the Foothill College associate in arts or associate in science degree. However, it is not appropriate for students pursuing an A.A.–T or A.S.–T degree. Students planning to earn an A.A.–T or A.S.–T must complete either the IGETC or CSU GE Breadth general education pattern. Note that completion of the IGETC or CSU GE Breadth pattern may also be used to satisfy the general education requirements for the Foothill A.A./A.S. degree. **Because there are significant differences between the three patterns, the student is strongly advised to meet with a counselor to determine which pattern will best meet the student's goals.**

Effective Summer Session 2021

4/20/21

**FOOTHILL COLLEGE
CHANGES TO GENERAL EDUCATION & GRADUATION REQUIREMENTS 2021-22**

Area I - Humanities

- Added: BUSI 70*, ENGL 27G, ETHN 51†, ETHN 52†, ETHN 53†, ETHN 55†, KINS 5
- Removed (deactivated): ENGL 18A

Area II - English

No changes

Area III - Natural Sciences (with laboratory)

No changes

Area IV - Social & Behavioral Sciences

- Added: CNSL 3, CNSL 3H, POLI 4
- Removed (deactivated): SPED 2

Area V - Communication & Analytical Thinking

- Removed (deactivated): C S 1AH

Area VI - United States Cultures & Communities

- Added: CNSL 3, CNSL 3H, ETHN 51†, ETHN 52†, ETHN 52†, ETHN 55†
- Removed (deactivated): SPED 1

Area VII - Lifelong Learning

- Added: Apprenticeship - Plumbing Technology program*
- Removed (deactivated): SPED 1

**Note that the GE applications for BUSI 70 and the Apprenticeship - Plumbing Technology program are included on the 4/20/21 CCC agenda for approval. If either is not approved, it will not be included on the 2021-22 GE list*

†Effective fall 2021 quarter (will be added when the fall catalog addendum is published)

General Education Review Request

AREA I - HUMANITIES

Course Number & Title: BUSI 70 Business & Professional Ethics

Breadth Criteria:

At Foothill College, the primary objective of the general education requirements is to provide students with the depth and breadth of knowledge and understanding required to be independent, thinking persons who are able to interact successfully with others as educated and productive members of our diverse society. Design and implementation of the general education curriculum ensures that students have exposure to all major disciplines, understand relationships among the various disciplines, and appreciate and evaluate the collective knowledge and experiences that form our cultural and physical heritage. General education courses provide content that is broad in scope and at an introductory depth, and all require critical thinking.

A general education enables students to clarify and present their personal views as well as respect, evaluate, and be informed by the views of others. This academic program is designed to facilitate a process that enables students to reach their fullest potential as individuals, national and global citizens, and lifelong learners for the 21st century.

In order to be successful, students are expected to have achieved minimum proficiency in math (MATH 105) and English (ENGL 1A, 1AH or ESL 26) before enrolling in a GE course.

A completed pattern of general education courses provides students with opportunities to acquire, practice, apply, and become proficient in each of the core competencies listed below.

- B1. Communication (analytical reading, writing, speaking, and listening skills including evaluation, synthesis, and research).
- B2. Computation (application of mathematical concepts, and/or using principles of data collection and analysis to solve problems).
- B3. Creative, critical, and analytical thinking (reasoning, questioning, problem solving, and consideration of consequence).
- B4. Community and global consciousness and responsibility (consideration of one's role in society at the local, regional, national, and global level in the context of cultural constructs and historical and contemporary events and issues).
- B5. Information competency (ability to identify an information need, to find, evaluate and use information to meet that need in a legal and ethical way) and digital literacy (to teach and assess basic computer concepts and skills so that people can use computer technology in everyday life to develop new social and economic opportunities for themselves, their families, and their communities).

Depth Criteria for Area I - Humanities:

The humanities include courses in Arts and Letters that give students knowledge and understanding of significant works of the human intellect and imagination. These works cover all the varieties of human expression through time. Knowledge of the significance of the historical and cultural context in which the works are created and interpreted expands the students' awareness of the human condition, cultivating an appreciation of human values and achievements. Humanities courses should enable students to participate in social and cultural communities associated with artistic and literary endeavors, enriching their personal and professional lives.

A course meeting the Humanities requirement incorporates a multidisciplinary approach (drawing from **two or more** of the following - history, literature, philosophy, religion, language, and the arts) as it addresses and explores central questions about the meaning and experience of human life.

A course meeting the Humanities General Education Requirement **must** help students:

- H1. Acquire knowledge and understanding of significant artistic, literary, or philosophical works and the historical and cultural context in which the works were created and interpreted;
- H2. Deepen their knowledge of the human condition through systematic inquiry into consciousness, values, ideas, and ideals;
- H3. Develop appreciation for what is significant about human life and its creations;
- H4. Make reasoned judgments that reflect ethical and aesthetic human values;
- H5. Develop the ability to respond to artistic and literary works both analytically and affectively through writing as well as through other forms of artistic expression.

In addition, courses **must** identify how they will help students achieve **at least two** of the following learning outcomes:

- H6. Understanding of the ambiguities, vagaries, and value inherent in human language;
- H7. Appreciation of nonverbal communication to be found in the visual and performing arts;
- H8. Recognition of the variety of valid interpretations of artistic expression;
- H9. Appreciation of our common humanity within the context of diverse cultures;
- H10. Thinking critically, including the ability to find, recognize, analyze, evaluate, and communicate ideas, information, and opinions as they relate to the products of human intellect and imagination.

General Education Review Request AREA I - HUMANITIES

Course Number & Title: BUSI 70 Business & Professional Ethics

Please map each appropriate component from the **Course Outline of Record** to the appropriate depth and breadth criteria. You can use any part of your COR including course outcomes, expanded content, methods of instruction/evaluation, and/or lab content.

Depth Map: Must include the following:

Course incorporates a multidisciplinary approach (drawing from two or more of the following: history, literature, philosophy, religion, language and the arts) as it addresses and explores central questions about the meaning and experience of human life;

Matching course component(s):

H1. Acquire knowledge and understanding of significant artistic, literary, or philosophical works and the historical and cultural context in which the works were created and interpreted;

Matching course component(s)

BUSI 70 provides a foundational exploration of philosophical schools/theories of Classic moral philosophy and normative theories of ethics, such as:

1. The nature of ethics and morality
2. Normative theories of ethics
3. Business ethics and professional ethics
4. Threats to ethics: Conventionalism, relativism

H2. Deepen their knowledge of the human condition through systematic inquiry into consciousness, values, ideas, and ideals;

Matching course component(s):

BUSI 70 addresses topics of human consciousness, values, ideas and ideals as they apply in the business context of human agency, touching a variety of topics, including:

1. Corporate moral agency
2. Corporate responsibility - the social debate
3. Individual obligations to self, team, organization, and society
4. Business compliance vs business ethics
5. Business and environmental ethics
6. Technology and ethics

H3. Develop appreciation for what is significant about human life and its creations;

Matching course component(s):

BUSI 70 helps students to develop an appreciation for and understanding of ethics in a global context, focusing on topics such as:

1. Ethical principles and global business
2. Ethics viewed from a multicultural perspective
3. First world vs. Third world values in conflict
4. Globalization: Economic and ethical challenges

H4. Make reasoned judgments that reflect ethical and aesthetic human values;

Matching course component(s):

1. The nature of justice
2. The Utilitarian perspective of justice
3. Deontological approach
4. The Libertarian approach
5. John Rawls, "A Theory of Justice"

**General Education Review Request
AREA I - HUMANITIES**

6. Distributive justice

H5. Develop the ability to respond to artistic and literary works both analytically and affectively through writing as well as through other forms of artistic expression.

Matching course component(s):

Students will be exposed to a variety of literary works in philosophy and ethics, and be guided through critical analyses of these works as they apply to the business aspect of the human condition

Depth Map: Additionally, must include at least two of the following:

H6. Understanding of the ambiguities, vagaries, and value inherent in human language;

Matching course component(s):

N/A

H7. Appreciation of nonverbal communication to be found in the visual and performing arts;

Matching course component(s):

N/A

H8. Recognition of the variety of valid interpretations of artistic expression;

Matching course component(s):

N/A

H9. Appreciation of our common humanity within the context of diverse cultures;

Matching course component(s):

Students will gain an appreciation of common humanity within the context of diverse cultures in BUSI 70 through the exploration of ethics as it relates to global business viewed from a multicultural perspective

H10. Thinking critically, including the ability to find, recognize, analyze, evaluate, and communicate ideas, information, and opinions as they relate to the products of human intellect and imagination.

Matching course component(s):

In BUSI 70, students will develop their ability to think critically, focusing on issues of ethics in the context of business in order to understand, evaluate, and develop informed opinions on moral issues and dilemmas facing today's workforce.

Breadth Mapping: please indicate all that apply (if applicable)

B1. Communication (analytical reading, writing, speaking, and listening skills including evaluation, synthesis, and research).

Matching course component(s):

BUSI 70 will place significant emphasis on various forms of communication including analytical reading and writing (focusing on evaluation, synthesis and research)

B2. Computation (application of mathematical concepts, and/or using principles of data collection and analysis to solve problems).

Matching course component(s):

BUSI 70 students will utilize utilitarianism to calculate hedons/utility to inform right actions

B3. Clearly and precisely express their ideas in a logical and organized manner using the discipline-appropriate language.

Matching course component(s):

Students in BUSI 70 will be required to demonstrate their ability to express ideas in a cogent, logical and organized manner when presenting arguments regarding ethical issues in the workplace.

**General Education Review Request
AREA I - HUMANITIES**

B4. Community and global consciousness and responsibility (consideration of one's role in society at the local, regional, national, and global level in the context of cultural constructs and historical and contemporary events and issues).

Matching course component(s):

Students in BUSI 70 are compelled to apply ethical approaches to explore and investigate a variety of case studies and situations illustrating how conflicts arise from various ethical schools of thought. Additionally, this approach compels students to appreciate the complexity of ethics and the ambiguities that can arise.

B5. Information competency (ability to identify an information need, to find, evaluate and use information to meet that need in a legal and ethical way) and digital literacy (to teach and assess basic computer concepts and skills so that people can use computer technology in everyday life to develop new social and economic opportunities for themselves, their families, and their communities).

Matching course component(s):

BUSI 70 compels student to expand their scope of consideration to include a broader set of stakeholders and their interests. As a result, students should seek out more information and perspectives to develop more complex decisions that account for the interests of others, including stakeholders that are unable to express their interests (indirect and non-human stakeholders). This component compels students to consider legal dimensions, but also the ethical justification to conclude that some laws may be unethical and unjust.

General Education Review Request

AREA VII - LIFELONG LEARNING

Course Number & Title: Plumbing Technology Apprenticeship Program

Breadth Criteria:

At Foothill College, the primary objective of the general education requirements is to provide students with the depth and breadth of knowledge and understanding required to be independent, thinking persons who are able to interact successfully with others as educated and productive members of our diverse society. Design and implementation of the general education curriculum ensures that students have exposure to all major disciplines, understand relationships among the various disciplines, and appreciate and evaluate the collective knowledge and experiences that form our cultural and physical heritage. General education courses provide content that is broad in scope and at an introductory depth, and all require critical thinking.

A general education enables students to clarify and present their personal views as well as respect, evaluate, and be informed by the views of others. This academic program is designed to facilitate a process that enables students to reach their fullest potential as individuals, national and global citizens, and lifelong learners for the 21st century.

In order to be successful, students are expected to have achieved minimum proficiency in math (MATH 105) and English (ENGL 1A, 1AH or ESL 26) before enrolling in a GE course.

A completed pattern of general education courses provides students with opportunities to acquire, practice, apply, and become proficient in each of the core competencies listed below.

- B1. Communication (analytical reading, writing, speaking, and listening skills including evaluation, synthesis, and research).
- B2. Computation (application of mathematical concepts, and/or using principles of data collection and analysis to solve problems).
- B3. Creative, critical, and analytical thinking (reasoning, questioning, problem solving, and consideration of consequence).
- B4. Community and global consciousness and responsibility (consideration of one's role in society at the local, regional, national, and global level in the context of cultural constructs and historical and contemporary events and issues).
- B5. Information competency (ability to identify an information need, to find, evaluate and use information to meet that need in a legal and ethical way) and digital literacy (to teach and assess basic computer concepts and skills so that people can use computer technology in everyday life to develop new social and economic opportunities for themselves, their families, and their communities).

Depth Criteria for Area VII - Lifelong Learning:

Courses in this area provide students with the skills needed to continue learning after they leave college. Courses focus on the study of humans as integrated intellectual, physiological, social and psychological beings in relation to society and the environment. Full understanding and synthesis of a subject area usually occurs when the skills mastered in a course of study are applied to the context of another discipline. Students are given an opportunity to experience this concept in courses that provide opportunities that bridge subject areas so that students learn to function as independent and effective learners.

Physical activity courses are given inclusion to this area in recognition of the reality that you have to be healthy and live a long life in order to take advantage of lifelong learning. Foothill College deems that: Physical activity courses are acceptable, if they entail movement by the student and are overseen by a faculty member or coach. These courses can be taken for up to 2 units.

A course meeting the Lifelong Learning General Education Requirement **must** help students:

- L1. Acquire and demonstrate knowledge, skills, and attitudes that support the application of information across two or more disciplines of study;
- L2. Develop practical tools that can be integrated into problem solving and decision making with current day-to-day issues and which can be adapted to future situations;
- L3. Identify current issues and concerns that influence health, communication or learning;
- L4. Comprehend and apply health and well-being issues to the individual and to society;
- L5. Find, evaluate, use and communicate information in all of its various formats and understand the ethical and legal implications of the use of that information.

In addition, a course meeting this requirement **must** include **at least one** of the following student learning outcomes:

- L6. Define career and life planning strategies and resources including goal setting and time management, learning styles and self-awareness, building a positive work ethic and leadership qualities;
- L7. Analyze beliefs, attitudes, biases, stereotypes, and behaviors in individuals and communities regarding temporary needs, problems and concerns facing society;
- L8. Understand the importance of physical fitness and its impact on an individual's physical and mental health;
- L9. Use technology to analyze problems and create solutions.

General Education Review Request AREA VII - LIFELONG LEARNING

Course Number & Title: Plumbing Technology Apprenticeship Program

Please map each appropriate component from the **Course Outline of Record** to the appropriate depth and breadth criteria. You can use any part of your COR including course outcomes, expanded content, methods of instruction/evaluation, and/or lab content.

Depth Map: Must include the following:

L1. Acquire and demonstrate knowledge, skills, and attitudes that support the application of information across two or more disciplines of study;

Matching course component(s):

Demonstrate proficiency in the use of common tools; **APPT 121**; Instruction in identification and tying various types of knots, study hands on safe practices of rigging and hoisting piping materials. This course provides students with a working knowledge of mathematics and science as it applies to the plumbing industry; **APPT 162**

L2. Develop practical tools that can be integrated into problem solving and decision making with current day-to-day issues and which can be adapted to future situations;

Matching course component(s):

Instruction in the use of a transit, builder's level, laser level and other measuring instruments in the layout and installation of piping systems. Establish the invert elevations and coordination of piping systems by means of profile drawings; **APPT 134A**; Students will identify information from various plan pages, details and specifications to coordinate workable drawings that do not conflict with other trades. **APPT 138**

L3. Identify current issues and concerns that influence health, communication or learning;

Matching course component(s):

Learn use and care of pipe trade tools, practice safety and heritage of the United Association. Also provides OSHA 30 certification; **APPT 161**; This course provides students with a working knowledge of Advanced Drawing, Plumbing Layout and Building Detailing. Practical field knowledge of plumbing duties, processes, objectives and code callouts is covered in-depth **APPT 169**

L4. Comprehend and apply health and well-being issues to the individual and to society;

Matching course component(s):

Study in the requirements for emergency response to and handling of hazardous materials. Laws of chemical hazards, electrical hazards, personal protective equipment, and confined spaces, monitoring equipment, and Federal and Cal-OSHA Standards for the construction industry will be covered; **APPT 134B**

L5. Find, evaluate, use and communicate information in all of its various formats and understand the ethical and legal implications of the use of that information.

Matching course component(s):

Employment information and procedures, history and heritage of plumbing, organization and construction safety. Necessary trade skills include cutting and threading, use and care of tools, and soldering and brazing are taught along with construction terminology and plumbing definitions; **APPT 121**; The student will be able to: Perform pipefitting and welding; Perform oxy-acetylene cutting in the pipefitting industry; Learn safety related to welding and burning; **APPT 189**

Depth Map: Additionally, must include at least one of the following:

L6. Define career and life planning strategies and resources including goal setting and time management, learning styles and self-awareness, building a positive work ethic and leadership qualities;

Matching course component(s):

Students will demonstrate management techniques through planning and organizing a complex piping project. Students will develop project schedules and complete coordination exercises. Students will complete their DISC profile to learn their management style and learn how to manage people through adapting to their learning styles. **APPT 129**

**General Education Review Request
AREA VII - LIFELONG LEARNING**

L7. Analyze beliefs, attitudes, biases, stereotypes, and behaviors in individuals and communities regarding temporary needs, problems and concerns facing society;

Matching course component(s):

L8. Understand the importance of physical fitness and its impact on an individual's physical and mental health;

Matching course component(s):

L9. Use technology to analyze problems and create solutions.

Matching course component(s):

This course provides students with a working knowledge of Advanced Drawing, Plumbing Layout and Building Detailing. Practical field knowledge of plumbing duties, processes, objectives and code callouts is covered in-depth; **APPT 169**

Breadth Mapping: please indicate all that apply (if applicable)

B1. Communication (analytical reading, writing, speaking, and listening skills including evaluation, synthesis, and research).

Matching course component(s):

Along with prompting students to identify and analyze their individual learning and communication styles, the Project Management classes **JRYM 105 & 106** empowers students to collaborate with one another in groups and team building exercises. During these activities apprenticeship students develop listening, team building, writing and public speaking skills—guided by the Instructor—and provide each other with critiques of their development along with suggestions for increased synthesis.

B2. Computation (application of mathematical concepts, and/or using principles of data collection and analysis to solve problems).

Matching course component(s):

In addition to completing **APPT 142** 'Related Math, Drawing & Rigging' entailing the SLO to calculate complex piping off-sets using mathematical calculations numerical values, square roots and pipe measurements. The Project Management course requires students to assess then strategize personnel resources, materials needed, estimated timeline of project completion, then clearly articulate the logic utilized to prospective industry professionals accounting for scope and tasks within construction projects.

B3. Clearly and precisely express their ideas in a logical and organized manner using the discipline-appropriate language.

Matching course component(s):

The Project Management course teaches interpersonal communication techniques to deal with conflicts occurring from scheduling, resource allocation, meeting Cal/OSHA requirements regulations, specifications for contracts / requests for proposals (RFPs) including a variety of professional interactions and responsibilities.

B4. Community and global consciousness and responsibility (consideration of one's role in society at the local, regional, national, and global level in the context of cultural constructs and historical and contemporary events and issues).

Matching course component(s):

Module #1 Union Heritage holds apprenticeship students accountable for knowing the communities they service both commercial and residential. Union 393 maintains a high standard of national consciousness and ethical practice, by requiring students to read and demonstrate understanding of United Association "Your Heritage and Future in the Pipe Trades" a compendium documenting the historical legacy of Union standards, practice along with service to surrounding communities.

**General Education Review Request
AREA VII - LIFELONG LEARNING**

B5. Information competency (ability to identify an information need, to find, evaluate and use information to meet that need in a legal and ethical way) and digital literacy (to teach and assess basic computer concepts and skills so that people can use computer technology in everyday life to develop new social and economic opportunities for themselves, their families, and their communities).

Matching course component(s):

APPT 138 'Advanced Drawing & Blueprint Reading' course requires apprenticeship students to maintain familiarization with up-to-date computer skills, data analysis. In this class apprentices learn the interpretation of orthographic and isometric drawings and building plans that make up working drawings for the proper installation of piping systems. The program infuses basic computing concepts and skills focused on computer technology in everyday life to develop new social and economic opportunities for themselves, their families, and their communities.

Foothill College
Credit Program Narrative
Certificate of Achievement in Cybersecurity

Item 1. Program Goals and Objectives

Students who earn the Certificate of Achievement in Cybersecurity will be prepared for entry-level cybersecurity jobs in less than one year. The certificate also serves as a strong foundation for those who wish to continue their training to achieve further certificates and degrees for higher-wage positions.

There are multiple career paths in the field of cybersecurity that require different skills and abilities. Companies and institutions need thousands of individuals who can perform business and operations analysis, risk assessment of processes and systems, expose operational and technological vulnerabilities, identify potential threats, and develop recommendations and technological solutions to strengthen defenses.

Program Learning Outcome:

- Upon completion of the program, students will be able to design and implement security policies for organizations of all sizes.

Item 2. Catalog Description

The Certificate of Achievement in Cybersecurity is designed for people who are seeking employment with companies of all types. The scope of cybersecurity is very broad, including both open-source and proprietary solutions. All organizations have a need for cybersecurity professionals. For example, a website developer is responsible for securing their website against different types of attacks; or a database engineer is responsible for granting secure access to data. The program provides 27 units of instruction on deploying secure networks, and the fundamentals of cybersecurity, ethical hacking, computer forensics and firewalls.

Item 3. Program Requirements

Requirements	Course #	Title	Units	Sequence
Core Courses (27 units)	C S 30A	INTRODUCTION TO LINUX	4.5	Year 1, Winter
	C S 50A	NETWORK BASICS (CCNA)	4.5	Year 1, Fall
	C S 53A	CYBERSECURITY FUNDAMENTALS	4.5	Year 1, Fall
	C S 53B	FIREWALLS & THREAT MANAGEMENT	4.5	Year 1, Winter
	C S 53C	ETHICAL HACKING	4.5	Year 1, Spring
	C S 53D	INTRODUCTION TO COMPUTER FORENSICS	4.5	Year 1, Spring

TOTAL UNITS: 27 units

Proposed Sequence:

Year 1, Fall = 9 units

Year 1, Winter = 9 units

Year 1, Spring = 9 units

TOTAL UNITS: 27 units

Item 4. Master Planning

Foothill College offers programs and services that empower students to achieve goals as members of the workforce. There is currently a high demand for qualified individuals who are well-versed in cybersecurity. It is one of the required disciplines in technology today. This certificate program will provide companies with individuals who are familiar with cybersecurity policy creation and the technical tools and techniques to secure all of their computing resources.

Item 5. Enrollment and Completer Projections

Currently, there is a significant undersupply of cybersecurity workers compared to the demand in the Bay Area region. The median hourly wage for jobs in cybersecurity is slightly under \$60/hr. Due to the high demand and relatively high wages for cybersecurity jobs, we foresee that the demand for the certificate will be at least 40 students per year. In addition, we expect to offer the courses as hybrid/online split format, which will attract a number of students statewide.

Course #	Course Title	Year 1: 2018-19		Year 2: 2019-20	
		Annual Sections	Annual Enrollment	Annual Sections	Annual Enrollment
C S 30A	INTRODUCTION TO LINUX	4	153	4	153
C S 50A	NETWORK BASICS (CCNA)	6	107	3	81
C S 53A	CYBERSECURITY FUNDAMENTALS	4	62	4	48
C S 53B	FIREWALLS & THREAT MANAGEMENT	2	26	2	28
C S 53C	ETHICAL HACKING	2	39	4	71
C S 53D	INTRODUCTION TO COMPUTER FORENSICS	1	30	1	38

Item 6. Place of Program in Curriculum/Similar Programs

Foothill College offers many different computer science courses, some of which are programming-based, while others are in the enterprise-networking arena. However, there is no other program similar to the Certificate of Achievement in Cybersecurity at Foothill.

Item 7. Similar Programs at Other Colleges in Service Area

Currently, there is a similar program at San Francisco City College. The proposed program is based on the highly successful CSSIA Training offered at Moraine Valley Community College in Illinois.

Cybersecurity Occupations Labor Market Information Report Foothill College

Prepared by the San Francisco Bay Center of Excellence for Labor Market Research
April 2021

Recommendation

Based on all available data, there appears to be an “undersupply” of Cybersecurity workers compared to the demand for this cluster of occupations in the Bay region and in the Silicon Valley sub-region (Santa Clara county). There is a projected annual gap of about 4,277 students in the Bay region and 1,678 students in the Silicon Valley Sub-Region.

Introduction

This report provides student outcomes data on employment and earnings for TOP 0708.00 - Computer Infrastructure and Support programs in the state and region. It is recommended that these data be reviewed to better understand how outcomes for students taking courses on this TOP code compare to potentially similar programs at colleges in the state and region, as well as to outcomes across all CTE programs at Foothill College and in the region.

This report profiles Cybersecurity Occupations in the 12 county Bay region and in the Silicon Valley sub-region for a proposed new program at Foothill College.

- **Computer and Information Systems Managers (11-3021):** Plan, direct, or coordinate activities in such fields as electronic data processing, information systems, systems analysis, and computer programming. Excludes “Computer Occupations” (15-1111 through 15-1199).
Entry-Level Educational Requirement: Bachelor’s degree
Training Requirement: None
Percentage of Community College Award Holders or Some Postsecondary Coursework: 21%
- **Information Security Analysts (15-1212):** Plan, implement, upgrade, or monitor security measures for the protection of computer networks and information. May ensure appropriate security controls are in place that will safeguard digital files and vital electronic infrastructure. May respond to computer security breaches and viruses. Excludes “Computer Network Architects” (15-1143).
Entry-Level Educational Requirement: Bachelor’s degree
Training Requirement: None
Percentage of Community College Award Holders or Some Postsecondary Coursework: 27%

Occupational Demand

Educational Supply

There are three (3) community colleges in the Bay Region issuing 71 awards on average annually (last 3 years ending 2018-19) on TOP 0708.00 - Computer Infrastructure and Support. In the Silicon Valley Sub-Region, there are no community colleges issuing awards on average annually (last 3 years) on this TOP code.

Table 7. Community College Awards on TOP 0708.00 - Computer Infrastructure and Support in Bay Region

College	Subregion	Associate	Certificate Low	Total
Los Medanos	East Bay	6	5	11
Ohlone	East Bay	0	1	1
San Francisco	Mid-Peninsula	46	13	59
Total		52	19	71

Note: The annual average for awards is 2016-17 to 2018-19.

Gap Analysis

Based on the data included in this report, there is a large labor market gap in the Bay region with 4,348 annual openings for the Cybersecurity occupational cluster and 71 annual (3-year average) awards for an annual undersupply of 4,277 students. In the Silicon Valley Sub-Region, there is also a gap with 1,678 annual openings and no annual (3-year average) awards for an annual undersupply of 1,678 students.

Student Outcomes

FOOTHILL COLLEGE
Temporary Program Creation Process
Feedback Form for New Programs

Until the new permanent program creation process has been determined, as part of the temporary program creation process this form shall be used by a department to gather feedback on a new program from key governance committees on campus. A complete program narrative and supporting documentation must be submitted to the groups listed below (simultaneous submission is recommended). Each committee will provide initial feedback via email within two weeks but might also provide additional feedback after their monthly meetings.

After a two-week period, regardless of whether feedback has been received from the three committees, the Division Curriculum Committee may consider the new program for approval. Following Division CC approval, please forward this completed form to the Office of Instruction.

Foothill College
Credit Program Narrative
Certificate of Achievement in IT Support

Item 1. Program Goals and Objectives

Students who earn the Certificate of Achievement in IT Support will be prepared for entry-level IT support jobs in less than one year. The certificate also serves as a strong foundation for those who wish to continue their training to achieve further certificates and degrees for higher-wage positions.

IT support certification exposes students to skills and knowledge necessary to support end users who run Linux, Windows and the Microsoft Office applications. Of primary importance for the IT support technician is the development of soft skills. These interpersonal competencies are fostered to enable the IT support technician to successfully communicate in both written and verbal forms, as well as utilize techniques in conflict management.

Program Learning Outcome:

- Upon completion of the program, students will be able to provide desktop and helpdesk support in organizations of all sizes.

Item 2. Catalog Description

The Certificate of Achievement in IT Support is designed for people who are seeking employment with companies of all types. All organizations have a need for IT support professionals. The program provides 18 units of instruction on industry standard skills to understand, deploy and maintain computing devices and network devices. Students learn a range of topics that cover the technical principals of networking, the fundamentals of cybersecurity, hardware configuration, operations systems and soft skills.

Item 3. Program Requirements

Requirements	Course #	Title	Units	Sequence
Core Courses (18 units)	C S 30A	INTRODUCTION TO LINUX	4.5	Year 1, Spring
	C S 50A	NETWORK BASICS (CCNA)	4.5	Year 1, Winter
	C S 53A	CYBERSECURITY FUNDAMENTALS	4.5	Year 1, Spring
	C S 56B	IT ESSENTIALS	4.5	Year 1, Fall

TOTAL UNITS: 18 units

Proposed Sequence:

Year 1, Fall = 4.5 units

Year 1, Winter = 4.5 units

Year 1, Spring = 9 units

TOTAL UNITS: 18 units

Item 4. Master Planning

Foothill College offers programs and services that empower students to achieve goals as members of the workforce. There is currently a high demand for qualified individuals who are well-versed in IT support. It is one of the required disciplines in technology today. This certificate program will provide companies with individuals who are familiar with IT support in both the desktop and server environments.

Item 5. Enrollment and Completer Projections

Currently, there is a significant undersupply of IT support workers compared to the demand in the Bay Area region. The median hourly wage for jobs in IT support is slightly over \$40/hr. Due to the high demand and relatively high wages for IT support jobs, we foresee that the demand for the certificate will be at least 20 students per year. In addition, we expect to offer the courses as hybrid/online split format, which will attract a number of students statewide.

Course #	Course Title	Year 1: 2018-19		Year 2: 2019-20	
		Annual Sections	Annual Enrollment	Annual Sections	Annual Enrollment
C S 30A	INTRODUCTION TO LINUX	4	153	4	153
C S 50A	NETWORK BASICS (CCNA)	6	107	3	81
C S 53A	CYBERSECURITY FUNDAMENTALS	4	62	4	48
C S 56B*	IT ESSENTIALS	Not yet offered		Not yet offered	

*C S 56B is newly offered, so recent historical enrollment data is not applicable.

Item 6. Place of Program in Curriculum/Similar Programs

Foothill College offers many different computer science courses, some of which are programming-based, while others are in the enterprise-networking arena. However, there is no other program similar to the Certificate of Achievement in IT Support at Foothill.

Item 7. Similar Programs at Other Colleges in Service Area

Currently, there is a similar program at San Francisco City College and Ohlone College. The proposed program is based on the highly successful CompTIA model.

Additional Information Required for State Submission:

TOP Code: 0708.00 - Computer Infrastructure and Support

Annual Completers: 20 plus

Net Annual Labor Demand: 3,411

Faculty Workload: 1

New Faculty Positions: 0 (courses will be taught from current FT/PT faculty)

New Equipment: \$0

New/Remodeled Facilities: \$0

Library Acquisitions: \$0

Gainful Employment: Yes

Program Review Date: December, 2025, or earlier as required by the state.

Distance Education: 50 – 99%

IT Essentials Occupations Labor Market Information Report Foothill College

Prepared by the San Francisco Bay Center of Excellence
for Labor Market Research
May 2019

Recommendation

Based on all available data, there appears to be a significant undersupply of IT Essentials workers compared to the demand for this cluster of occupations in the Bay region and in the Silicon Valley sub-region (Santa Clara County). There is a projected annual gap of about 3,349 students in the Bay region and 1,414 students in the Silicon Valley Sub-Region.

This report also provides student outcomes data on employment and earnings for programs on TOP 0708.00 - Computer Infrastructure and Support in the state and region. It is recommended that these data be reviewed to better understand how outcomes for students taking courses on this TOP code compare to potentially similar programs at colleges in the state and region, as well as to outcomes across all CTE programs at Foothill College and in the region.

Introduction

This report profiles IT Essentials Occupations in the 12 county Bay region and in the Silicon Valley sub-region for a proposed new program at Foothill College.

- Computer Systems Analysts (SOC 15-1121):** Analyze science, engineering, business, and other data processing problems to implement and improve computer systems. Analyze user requirements, procedures, and problems to automate or improve existing systems and review computer system capabilities, workflow, and scheduling limitations. May analyze or recommend commercially available software.
 Entry-Level Educational Requirement: Bachelor's degree
 Training Requirement: None
 Percentage of Community College Award Holders or Some Postsecondary Coursework: 21%
- Computer, Automated Teller, and Office Machine Repairers (SOC 49-2011):** Repair, maintain, or install computers, word processing systems, automated teller machines, and electronic office machines, such as duplicating and fax machines.
 Entry-Level Educational Requirement: Some college, no degree
 Training Requirement: Short-term on-the-job training
 Percentage of Community College Award Holders or Some Postsecondary Coursework: 53%

NOTE: Headcount of students who took one or more courses is for 2016-17. The annual average for awards is 2014-17 unless there are only awards in 2016-17. The annual average for other postsecondary is for 2013-16.

Table 8. Related Bay Region programs listed in Chancellor's Office Curriculum Inventory (COCI) .

There are 15 colleges in the Bay Region with programs on TOP 0708.00 - Computer Infrastructure and Support, TOP 0708.10 - Computer Networking and TOP 0708.20 - Computer Support in the Bay Region per COCI.

Cabrillo	Foothill	Monterey Peninsula
Chabot	Hartnell	Ohlone
Contra Costa	Laney	San Francisco City
De Anza	Las Positas	San Jose City
Diablo Valley	Merritt	Skyline

Gap Analysis

Based on the data included in this report, there is a large labor market gap in the Bay region with 3,411 annual openings for the IT Essentials occupational cluster and 62 annual (3-year average) awards for an annual undersupply of 3,349 students. In the Silicon Valley Sub-Region, there is also a gap with 1,415 annual openings and 1 annual (3-year average) awards for an annual undersupply of 1,414 students.

Methodology

Occupations for this report were identified by use of skills listed in O*Net descriptions and job descriptions in Burning Glass. Labor demand data is sourced from Economic Modeling Specialists International (EMSI) occupation data and Burning Glass job postings data. Educational supply and student outcomes data is retrieved from multiple sources, including CTE Launchboard and CCCCO Data Mart.

FOOTHILL COLLEGE
Noncredit Program Narrative
Certificate of Competency in English as a Second Language for College and Careers
(High-Intermediate)

Item 1. Program Goals and Objectives

Students will demonstrate aural, written, and spoken English at increasingly more complex levels of expression in preparation for pursuing a degree, transferring to a university, or increasing career opportunities.

Program Learning Outcomes:

After completing the program, students will be prepared to begin level 4 ESLL credit course work through gaining proficiency in the following areas:

- increase English proficiency in academic reading, writing, listening, speaking, and grammar skills necessary to be successful in more advanced ESLL courses and courses in other disciplines.
- develop awareness of student success strategies for reading, writing, and classroom communication.
- gain confidence to seek assistance in class and around campus as needed to self-advocate.

Item 2. Catalog Description

The Certificate of Competency in English as a Second Language for College and Careers (High-Intermediate) prepares students to advance to higher levels of ESL, both credit and non-credit mirrored, by providing foundational English-language skills for students to progress towards higher level coursework as they continue their educational pathways. Students will be exposed to academic skills courses for learners of English as an additional language in which they will learn and practice how to identify main ideas in short texts, apply words learned in their given form by using them to write original sentences, and correctly use a wide range of grammatical forms, including modals in the past and present to express advisability, regret, and certainty, and appropriately use verb forms.

Item 3. Program Requirements

Requirement	Course #	Title	Hours	Sequence
Required Core (168-240 hours)	NCEL 426	High-Intermediate Grammar	60	Year 1, fall
	NCEL 427	High-Intermediate Reading Skills	60	Year 1, winter
	NCEL 425 OR NCEL 480	Developing Listening & Speaking Skills ESL for Job Searching	120 48	Year 1, spring

TOTAL HOURS: 168-240 hours

Item 4. Master Planning

History of the program proposal origins and curriculum offerings

The courses in the Certificate of Competency in English as a Second Language for College and Careers (High-Intermediate), which were originally written as credit courses three levels below transfer, can better serve students as noncredit classes, particularly for students who are transitioning from local adult schools to community college. The faculty who developed these courses worked with their colleagues in the adult schools in our service area to ensure that the courses in the certificate created a ladder from the adult school ESL curriculum to the college's ESL curriculum.

This program prepares students to advance to higher levels of ESL, both credit and noncredit, and provides the foundations for students to advance to higher levels of ESL, both credit and noncredit mirrored, by providing foundational English-language skills for students to progress towards higher level coursework as they continue their educational pathways.

College Mission

The Foothill College mission statement articulates: "Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability."

This program is in keeping with the Foothill College mission statement in that students who complete the certificate are "empowered to achieve their" educational goals. Whether students are advancing into credit instruction, or refining their language skills for work, this program will provide students with the linguistic preparation they need to succeed.

The program also aligns with the college's mission by providing opportunities for students to enhance their language skills including listening, speaking, reading, and writing. Since the courses in this program have no prerequisites, students completing the certificate will be encouraged to continue through the ESL credit sequence.

College/District Master Plan

According to the Foothill Educational Master Plan, "the college seeks to fulfill its education mission by supporting student achievement of certain learning outcomes, which emphasize knowledge and skills development beyond those of a specific discipline. Regardless of their educational goal or the number of courses and quarters completed successfully, Foothill college students should demonstrate equitable outcomes and student success in areas that include written and oral communication in English, mathematics, critical and analytical thinking, creativity, teamwork, responsibility, and other proficiencies."

Furthermore, to address the achievement gap displayed among student population groups, the college prioritized success course completion rates and Basic Skills/ESL completion rates, with a specific equity goal to “collaborate with K-12, adult education, and four-year institutions in ways that serve students and society.” As stated in the Plan, “Strengthening the pathway to transfer by collaborating with K-12, adult education, and four-year institutions can also contribute to developing a quality workforce who participates in higher-wage, higher-skill positions.” The faculty who developed these courses worked with their colleagues in the adult schools in our service area to ensure that the courses in the program created a ladder from the adult school ESL curriculum to the college’s ESL curriculum.

Finally, the Foothill Educational Master Plan indicates that “increases in the senior population may affect course offerings, perhaps increasing emphasis on non-credit, community education, skills building, or advanced technical training.” This program would be part of an overall endeavor in which the college has increased offerings in noncredit, with noncredit enrollment increasing from 1,566 to 4,389 students (+180%).

Objectives and conditions of higher education and community college education in California - statewide master planning

The report, “Preparing Students for Careers and College through Noncredit Enhanced Funding: Fiscal Year 2015-16,” highlights the role of the California Community Colleges in advancing students’ basic education and employment skills through the use of noncredit enhanced funding, stating, “Students who attain this education and training are better equipped to succeed in the world.”

According to the report, “There are still opportunities to develop Career Development and College Preparation certificates in the future,” and advises that “more colleges may develop certificates of competency or certificates of completion ***in basic skills and English as a second language.***” The report also suggests that “alternatively, colleges may decide to transition credit basic skills and credit English as a second language programs to noncredit,” as has been done for the courses in this program. The report states, “Students will benefit from the reduced costs and preservation of their federal financial aid status. Currently students are capped at 30 credit units of basic skills under federal regulations. This change can create a more even distribution of noncredit use throughout the system.”

FOOTHILL COLLEGE
Temporary Program Creation Process
Feedback Form for New Programs

Until the new permanent program creation process has been determined, as part of the temporary program creation process this form shall be used by a department to gather feedback on a new program from key governance committees on campus. A complete program narrative and supporting documentation must be submitted to the groups listed below (simultaneous submission is recommended). Each committee will provide initial feedback via email within two weeks but might also provide additional feedback after their monthly meetings.

After a two-week period, regardless of whether feedback has been received from the three committees, the Division Curriculum Committee may consider the new program for approval. Following Division CC approval, please forward this completed form to the Office of Instruction.

FOOTHILL COLLEGE
Noncredit Program Narrative
Certificate of Competency in English as a Second Language for College and Careers
(Advanced)

Item 1. Program Goals and Objectives

Students will demonstrate aural, written, and spoken English at increasingly more complex levels of expression in preparation for pursuing a degree, transferring to a university, or increasing career opportunities.

Program Learning Outcomes:

After completing the program, students will be prepared to begin transfer-level credit course work through gaining proficiency in the following areas:

- increase English proficiency in academic reading, writing, listening, speaking, and grammar skills necessary for academic success and professional advancement.
- develop awareness of student success strategies for reading, writing, and classroom communication.
- gain confidence to seek assistance in class and around campus as needed to self-advocate.

Item 2. Catalog Description

The Certificate of Competency in English as a Second Language for College and Careers (Advanced) prepares students for transfer-level credit course work by providing foundational English-language skills for students to progress towards higher level coursework as they continue their educational and career pathways. Students will be exposed to academic skills courses for learners of English as an additional language in which they will learn and practice how to identify main ideas in a variety of texts, apply new vocabulary in original student writing, and use a wide range of accurate grammatical forms critical to classroom and workplace success.

Item 3. Program Requirements

Requirement	Course #	Title	Hours	Sequence
Required Core (168-180 hours)	NCEL 436	Advanced Grammar	60	Year 1, fall
	NCEL 437	Basic Composition Skills	60	Year 1, winter
	NCEL 435	Listening/Speaking for Academic Purposes	60	Year 1, spring
	OR			
	NCEL 480	ESL for Job Searching	48	

TOTAL HOURS: 168-180 hours

Item 4. Master Planning

History of the program proposal origins and curriculum offerings

The courses in the Certificate of Competency in English as a Second Language for College and Careers (Advanced), which were originally written as credit courses three levels below transfer, can better serve students as noncredit classes, particularly for students who are transitioning from local adult schools to community college. The faculty who developed these courses worked with their colleagues in the adult schools in our service area to ensure that the courses in the certificate created a ladder from the adult school ESL curriculum to the college's ESL curriculum.

This program prepares students to advance to higher levels of ESL, both credit and noncredit, and provides the foundations for students to advance to higher levels of ESL, both credit and noncredit mirrored, by providing foundational English-language skills for students to progress towards higher level coursework as they continue their educational pathways.

College Mission

The Foothill College mission statement articulates: "Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability."

This program is in keeping with the Foothill College mission statement in that students who complete the certificate are "empowered to achieve their" educational goals. Whether students are advancing into credit instruction, or refining their language skills for work, this program will provide students with the linguistic preparation they need to succeed.

The program also aligns with the college's mission by providing opportunities for students to enhance their language skills including listening, speaking, reading, and writing. Since the courses in this program have no prerequisites, students completing the certificate will be encouraged to continue through the ESL credit sequence.

College/District Master Plan

According to the Foothill Educational Master Plan, "the college seeks to fulfill its education mission by supporting student achievement of certain learning outcomes, which emphasize knowledge and skills development beyond those of a specific discipline. Regardless of their educational goal or the number of courses and quarters completed successfully, Foothill college students should demonstrate equitable outcomes and student success in areas that include written and oral communication in English, mathematics, critical and analytical thinking, creativity, teamwork, responsibility, and other proficiencies."

Furthermore, to address the achievement gap displayed among student population groups, the college prioritized success course completion rates and Basic Skills/ESL completion rates, with a specific equity goal to “collaborate with K-12, adult education, and four-year institutions in ways that serve students and society.” As stated in the Plan, “Strengthening the pathway to transfer by collaborating with K-12, adult education, and four-year institutions can also contribute to developing a quality workforce who participates in higher-wage, higher-skill positions.” The faculty who developed these courses worked with their colleagues in the adult schools in our service area to ensure that the courses in the program created a ladder from the adult school ESL curriculum to the college’s ESL curriculum.

Finally, the Foothill Educational Master Plan indicates that “increases in the senior population may affect course offerings, perhaps increasing emphasis on non-credit, community education, skills building, or advanced technical training.” This program would be part of an overall endeavor in which the college has increased offerings in noncredit, with noncredit enrollment increasing from 1,566 to 4,389 students (+180%).

Objectives and conditions of higher education and community college education in California - statewide master planning

The report, “Preparing Students for Careers and College through Noncredit Enhanced Funding: Fiscal Year 2015-16,” highlights the role of the California Community Colleges in advancing students’ basic education and employment skills through the use of noncredit enhanced funding, stating, “Students who attain this education and training are better equipped to succeed in the world.”

According to the report, “There are still opportunities to develop Career Development and College Preparation certificates in the future,” and advises that “more colleges may develop certificates of competency or certificates of completion ***in basic skills and English as a second language.***” The report also suggests that “alternatively, colleges may decide to transition credit basic skills and credit English as a second language programs to noncredit,” as has been done for the courses in this program. Degree or Certificate Requirement

None of the above (Stand Alone course)

Stand Alone

If a Foothill credit course is not part of a state-approved associate's degree, certificate of achievement, or the Foothill GE pattern, it is considered by the state to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed Stand Alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission, and that there is sufficient need and resources for the course. To be compliant with state regulations, there must be a completed, approved Stand Alone form on file in the Office of Instruction. Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Are you requesting Stand Alone approval for the course on a temporary or permanent basis?

- **Temporary means the course will be incorporated into a new degree or certificate that is not yet State approved.**

- Permanent means there are no plans to add the course to a State approved degree or certificate, nor to the Foothill GE pattern.

Please select

Permanent

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene.

Please indicate how your course supports the Foothill College Mission:

Workforce/CTE

Criteria B. Need

A course may only be granted Stand Alone Approval if there is demonstrable need for the course in the college service area. Please provide evidence of the need or demand for your course, such as ASSIST documentation for transfer courses or Labor Market Information for workforce/CTE courses (if LMI is unavailable, advisory board minutes or employer surveys may be submitted). For basic skills courses, assessment-related data or information may be provided. Evidence may be provided in the box below and/or uploaded as an attachment.

Evidence

This course is in response to a request from our clinical partners to expand the Interventional Fellowship from one to two quarters. This course would provide the hands on education necessary for graduates of the Radiologic Technology program to advance into Interventional Radiology immediately upon graduating. The current course, R T 70A, was deemed to be an insufficient amount of time to educate the students in a highly technical arena.

Attach evidence

Need/Justification

This course is an opportunity for graduates of the Radiologic Technology program to gain focused clinical experience in Interventional Radiology necessary for the pursuit of an additional certification.

Course Description

Continuation of R T 70A, with emphasis on patient care, abdominal and pelvic procedures, thoracic procedures and neurological procedures.

Course Prerequisites

Prerequisite: R T 70A.

Course Corequisites**Course Advisories****Course Objectives**

The student will be able to:

1. demonstrate understanding of radiation protection for the patient, personnel, and self.
2. exhibit knowledge in the proper use of the angiography equipment.
3. adhere to standards of attendance, punctuality and dependability.
4. conduct self in a professional manner.
5. apply theory to practice by exhibiting ongoing, satisfactory job performance skills.
6. select appropriate equipment, devices and patient positioning as outlined by the department protocols.
7. demonstrate knowledge and application of various patient care techniques.
8. differentiate anatomy and pathophysiology as it relates to various diagnostic, interventional, and nonvascular procedures, with an emphasis on abdominal and pelvic, thoracic and neurological procedures.
9. present a case study poster presentation based on literature search and clinical experience.

Course Content

1. Radiation protection
 1. Patients
 2. Personnel
2. Angiography equipment
 1. Fluoroscopy
 2. Digital angiography
 3. Automatic injectors
3. Punctuality and dependability
 1. Clinic time reporting
 2. Absenteeism
 3. Communicating whereabouts appropriately
4. Professional conduct

1. Taking initiative
2. Communicating effectively
3. Conducting oneself in a professional manner
5. Job performance
 1. Effective procedural participation
 2. Planning and organizing work efficiently
 3. Being alert and interested in procedures
 4. Reading and understanding requisitions
 5. Communicating effectively
6. Procedures
 1. Patient positioning
 2. Tray set-up
 3. Guidewires
 4. Catheters
 5. Sheaths
 6. Needles
 7. Vessel access
7. Patient care
 1. Patient communication
 2. Patient assessment and monitoring
 3. Contrast administration
 4. Asepsis and sterile technique
 5. Patient discharge/post-procedure instructions
 6. Emergency care
8. Diagnostic, interventional and nonvascular procedures
 1. Abdominal and pelvic procedures
 1. Aortography
 2. Selective visceral angiography
 3. Renal angiography
 4. Adrenal angiography
 5. Pelvic angiography
 6. Inferior vena cavagram
 7. Paracentesis
 8. Angioplasty
 9. Stent placement
 10. Endograft placement
 11. Caval filter placement
 12. Caval filter removal
 13. Venous sampling
 14. TIPS
 15. Chemoembolization
 16. Radioembolization
 17. Embolization
 2. Thoracic procedures

1. Aortography
2. Pulmonary arteriography
3. Superior vena cavagram
4. Embolization
5. Endograft placement
6. Chest tube/drain placement
7. Thoracentesis
8. Thrombolysis/thrombectomy
9. Angioplasty
10. Stent placement
3. Neurological procedures
 1. Neurologic angiography
 2. Spinal arteriography
 3. Embolization
 4. Thrombolysis/thrombectomy
 5. Angioplasty
 6. Stent placement
 7. Vertebroplasty and/or kyphoplasty
 8. Discography
 9. Procedural based anatomy identification
9. Case study poster
 1. Poster presentation
 2. Oral presentation

Lab Content

1. Radiologic Technology clinical practice
 1. Radiation protection
 2. Equipment operation
 3. Image production
 4. Image evaluation
 5. Abdominal and pelvic, thoracic and neurological interventional procedures
 6. Patient care in a clinical setting

Degree or Certificate Requirement

None of the above (Stand Alone course)

Stand Alone

If a Foothill credit course is not part of a state-approved associate's degree, certificate of achievement, or the Foothill GE pattern, it is considered by the state to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed Stand Alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission, and that there is sufficient need and resources for the course. To be compliant with state regulations, there must be a completed, approved Stand Alone form on file in the Office of Instruction. Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Are you requesting Stand Alone approval for the course on a temporary or permanent basis?

- **Temporary means the course will be incorporated into a new degree or certificate that is not yet State approved.**

- Permanent means there are no plans to add the course to a State approved degree or certificate, nor to the Foothill GE pattern.

Please select

Temporary

In this case, identify the degree/certificate to which the course will be added:

Dental Assisting Apprenticeship Certificate of Achievement

What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?)

June 2021

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene.

Please indicate how your course supports the Foothill College Mission:

Workforce/CTE

Criteria B. Need

A course may only be granted Stand Alone Approval if there is demonstrable need for the course in the college service area. Please provide evidence of the need or demand for your course, such as ASSIST documentation for transfer courses or Labor Market Information for workforce/CTE courses (if LMI is unavailable, advisory board minutes or employer surveys may be submitted). For basic skills courses, assessment-related data or information may be provided. Evidence may be provided in the box below and/or uploaded as an attachment.

Evidence

Labor market data reports there is a shortage of dental assistants in California. In the Bay Area there is approximately 1 dental assistant per every 3 dentists.

Attach evidence

Need/Justification

This course teaches basic chairside assisting skills to dental assisting apprenticeship students and will be included in an upcoming certificate of achievement.

Course Description

Preparation for apprenticeship in a dental environment. Includes sexual harassment and diversity training. Introduction to chairside assisting skills; use and care of dental equipment, instrument identification; overview of common dental procedures such as patient intake, patient assessments, examination and prophylaxis appointments. Intended for students in the Dental Assisting Apprenticeship Program; enrollment is limited to students accepted in the program.

Course Prerequisites

Course Corequisites

Course Advisories

Content Review

Content Review Attachments

Baccalaureate Institution Attachments

Statute and/or Regulation Attachments

Course Objectives

The student will be able to:

1. Identify and react appropriately to sexual harassment situations in the workplace
2. Demonstrate an understanding of cultural diversity and the importance of cultural competence
3. Identify all parts and functions of a standard dental treatment room
4. Don and doff appropriate personal protective equipment when performing dental assisting duties
5. Perform set-up and breakdown of the dental unit using recommended infection control standards
6. Demonstrate proper positioning of the patient, the operator, and the assistant
7. Define a medical/dental history and identify contradictions or precautions for elective dental treatment
8. Accurately take and record an adult patient's vital signs without assistance
9. Describe and chart G.V. Black's classification for cavities and restorations

10. Identify and describe common dental restorations
11. Describe findings other than dental restorations found in the oral cavity
12. Describe a restorative dental chart form
13. Describe common periodontal assessments which are performed by the dental hygienist or dentist
14. Describe basic/exam, local anesthesia, rubber dam, matrix band and wedge, and dental prophylaxis procedures
15. Prepare tray set-ups for basic/exam, local anesthesia, rubber dam, matrix band and wedge, and dental prophylaxis procedures
16. Transfer instruments using the 4-handed technique to an operator
17. Apply and remove a rubber dam, in any specific region
18. Place the matrix band on the tooth and place necessary wedges to assure confinement of the filling material and adaptation to marginal areas
19. Perform high volume evacuation on a manikin and patient-partner to effectively remove oral fluids during dental procedures

Course Content

1. Identify and react appropriately to sexual harassment situations in the workplace
 1. Overview of the laws and policies at the state and federal level
 2. Meaning of sexual harassment
 3. Proactive approach to respond and manage sexual harassment
 4. Manage reactions and behaviors
 5. Employees rights and manager's responsibilities
2. Demonstrate an understanding of cultural diversity and the importance of cultural competence
 1. Characteristics of cultural competency
 2. Assess biases, stereotypes, and levels of cultural competence
 3. Health disparities of diverse populations
 4. Cultural communication
 5. Cultural competency strategies
3. Identify all parts and functions of a standard dental treatment room
 1. Dental equipment and maintenance
 2. Operation and identification of equipment
4. Don and doff appropriate personal protective equipment when performing dental assisting duties
 1. Order of donning and doffing
 1. Protective clothing
 2. Mask or respirator
 3. Gloves
 1. Handwashing and hand sanitizer use
 4. Protective eyewear and/or face shield
 5. Headcover

5. Perform set-up and breakdown of the dental unit using recommended infection control standards
 1. Beginning of day procedures
 1. Turn on vacuum system
 2. Set-up of treatment room
 1. Flush water and suction lines
 2. Place barriers and disposable items
 3. Prepare unit for patient arrival
 4. Escorting patient to and from dental unit
 1. Preparing unit for safe seating and dismissal of patient
 3. Break-down
 1. Transferring contaminated instruments to sterilization area
 2. Sharps and hazardous waste disposal
 3. Disposal of barriers
 4. Avoiding cross contamination
 4. End of day procedures
 1. Turn off vacuum system
6. Demonstrate proper positioning of the patient, the operator, and the assistant
 1. Ergonomics
 2. Right and left handed operators
 3. Zones using clock concept
7. Define a medical/dental history and identify contradictions or precautions for elective dental treatment
 1. Contradictions and precautions
 2. Prophylactic antibiotic premedication
 1. Indications
 2. Preferred antibiotic, dosage, and timing
 3. Alternatives for antibiotic allergies or complications
8. Accurately take and record an adult patient's vital signs without assistance
 1. Types of vital signs
 2. Armamentarium
 3. Respiration
 1. Procedure
 2. Blood pressure
 1. Procedure
9. Describe and chart G.V. Black's classification for cavities and restorations
 1. Classifications
 1. Caries
 2. Restorations
 2. Line angle and point angles
10. Identify and describe common dental restorations
11. Describe findings other than dental restorations found in the oral cavity
 1. Common abbreviations
12. Describe a restorative dental chart form

13. Describe common periodontal assessments which are performed by the dental hygienist or dentist
 1. Periodontal charting conditions
 2. Common abbreviations
14. Describe common dental procedures
 1. Basic/exam tray
 2. Local anesthesia
 3. Rubber dam, matrix band, and wedge
 4. Dental prophylaxis
15. Prepare tray set-ups for common dental procedures
 1. Basic/exam tray
 1. Armamentarium and disposable products
 2. Local anesthesia set-up
 1. Topical anesthetic
 1. Types of topical anesthetics
 2. Armamentarium and disposable products
 2. Local anesthesia
 1. Types of local anesthetic solutions
 1. Contraindications
 2. Armamentarium and disposable products
 3. Set-up and break-down of local anesthetic syringe
 4. Safety precautions
 1. Sharps container
 2. Recapping techniques
 3. Needlestick protocol
 5. Types of injections
 1. Injection sites
 3. Rubber dam, matrix band, and wedge
 1. Armamentarium and disposable products
 4. Dental prophylaxis
 1. Deposits on the teeth
 2. Gingivitis and periodontal disease
 3. Types of non-surgical periodontal procedures
 4. Armamentarium and disposable products for routine prophylaxis
 16. Transfer instruments using the 4-handed technique to an operator
 1. Instrument grasp
 2. One-handed and two-handed transfer
 3. Exam/basic tray
 4. Prophylaxis tray
 5. Rubber dam tray
 17. Apply and remove a rubber dam, in any specific region
 1. Types of rubber dam and frames
 2. Placement and removal

18. Place the matrix band on the tooth and place necessary wedges to assure confinement of the filling material and adaptation to marginal areas
 1. Types of matrices
 2. Placement and removal
19. Perform high volume evacuation on a manikin and patient-partner to effectively remove oral fluids during dental procedures
 1. Types of high volume evacuator tips
 2. Evacuator tip placement

Lab Content

1. Clinic equipment identification
2. Handwashing and PPE
3. Infection control set-up and break-down in clinic
4. Patient/operator positioning in clinic
5. Take and record vital signs
6. Basic tray set-up
7. Instrument transfer in clinic
8. Local anesthesia syringe set-up
9. Rubber dam on typodont
10. Rubber dam in clinic
11. Prophylaxis tray set-up
12. Matrix band and wedge(s)
13. Oral evacuation

Special Facilities and/or Equipment

1. Dental clinic
2. Patient dental chair with bracket table
3. Operator and assistant stools
4. Sinks
5. Steam autoclave
6. Miele dishwasher/disinfector
7. Dental vibrator
8. Dental manikin

RE: Foothill College Registered Dental Assistant Apprenticeship Program Support

January 15, 2021

Dear Mr. Subramaniam:

On behalf of our 27,000 member dentists across the state, California Dental Association (CDA) supports the Foothill College Registered Dental Assisting (RDA) Apprenticeship Program and strongly supports the college's efforts and continued financial investment in all of its dental assisting course offerings, including the expeditious approval of apprenticeship courses and the erection of a separate dental assisting training facility to help accommodate scheduling labs, pre clinic/clinic session for both dental hygiene and assisting students.

Millions of Californians face barriers to access the dental care they need, and ensuring a properly trained workforce is crucial to expanding access to care. For many parts of the state, there is only one RDA for every licensed dentist, and in many parts of the Bay Area, there is only one RDA for every three licensed dentists. RDAs are the essential extra hands, eyes and ears of the dentist, significantly expanding the care a dental office or clinic can provide. The lack of educational programs for dental assistants and the resulting insufficiency of trained staff has become a real problem in many parts of the state. This issue is so significant that CDA has recently developed a taskforce focused on addressing workforce shortage issues.

Dentists have consistently found graduates of the Foothill College RDA educational program to be of very high quality, as evidenced by the consistently high passage rates of students on RDA licensure examinations. What's more, students often have secured employment upon graduation and successful licensure, contributing significantly to the wellbeing of their families and communities.

For these reasons, CDA strongly supports Foothill College's continued support and investment in its dental assisting program offerings.

Sincerely,

A handwritten signature in black ink that reads "Mary McCune". The signature is written in a cursive, flowing style.

Degree or Certificate Requirement

None of the above (Stand Alone course)

Stand Alone

If a Foothill credit course is not part of a state-approved associate's degree, certificate of achievement, or the Foothill GE pattern, it is considered by the state to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed Stand Alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission, and that there is sufficient need and resources for the course. To be compliant with state regulations, there must be a completed, approved Stand Alone form on file in the Office of Instruction. Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Are you requesting Stand Alone approval for the course on a temporary or permanent basis?

- **Temporary means the course will be incorporated into a new degree or certificate that is not yet State approved.**

- Permanent means there are no plans to add the course to a State approved degree or certificate, nor to the Foothill GE pattern.

Please select

Temporary

In this case, identify the degree/certificate to which the course will be added:

Dental Assisting Apprenticeship Certificate of Achievement

What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?)

June 2021

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene.

Please indicate how your course supports the Foothill College Mission:

Workforce/CTE

Criteria B. Need

A course may only be granted Stand Alone Approval if there is demonstrable need for the course in the college service area. Please provide evidence of the need or demand for your course, such as ASSIST documentation for transfer courses or Labor Market Information for workforce/CTE courses (if LMI is unavailable, advisory board minutes or employer surveys may be submitted). For basic skills courses, assessment-related data or information may be provided. Evidence may be provided in the box below and/or uploaded as an attachment.

Evidence

Labor market data reports there is a shortage of dental assistants in California. In the Bay Area there is approximately 1 dental assistant per every 3 dentists.

Attach evidence

Need/Justification

This course is needed for the dental assisting apprenticeship pathway to teach clinical skills, and it will be included in an upcoming certificate of achievement.

Course Description

Overview of common dental procedures, such as composite, amalgam, partials, dentures, root canals, dental implants, crown and bridge appointments; manipulation of dental materials commonly prepared or used by the dental assistant, including impression materials, cement bases and liners, composites, and amalgams. Intended for students in the Dental Assisting Apprenticeship Program; enrollment is limited to students accepted in the program.

Statute and/or Regulation Attachments

Course Objectives

The student will be able to:

1. Prepare on an adult patient without assistance an acceptable alginate and scanned impressions of the upper and lower arches, including all teeth, retromolar and vestibular areas
2. Select, collect the materials and armamentarium, and prepare, mix and pour a dental cast with no large irregularities or faults
3. Trim a plaster/stone model for bleaching splints or nightguard
4. Describe composite, amalgam, partials, dentures, root canals, dental implants, crown and bridge dental procedures
5. Prepare tray set-ups for composite, amalgam, and crown and bridge dental procedures
6. Describe the common dental cements and restorative materials and describe their uses and limitations

7. Prepare and mix without assistance at a satisfactory level any of the commonly used dental cements or materials, as allowed and specified by legally defined duties
8. Select, collect the materials and armamentarium, and prepare and/or mix without assistance final impression materials so that a satisfactory impression could be obtained

Course Content

1. Prepare on an adult patient without assistance an acceptable alginate and scanned impressions of the upper and lower arches, including all teeth, retromolar and vestibular areas
 1. Types of preliminary impressions
 1. Alginate
 1. Indications
 2. Composition
 3. Appropriate handling
 4. Infection control considerations
 5. Types of impression trays
 1. Selection and fitting of impression tray
 6. Safety precautions
 1. Risk of aspiration or swallowing
 2. Avoiding injury to the patient
 7. Procedure
 1. Armamentarium
 2. Dispensing and mixing
 3. Loading tray and insertion of tray
 4. Removal of tray
 5. Evaluation of impression
 8. Alginate alternatives
 1. Composition
 2. Armamentarium
 1. Dispensing gun, cartridge, and mixing tip
 9. Scanning
 1. Types of scanners
 2. Technology considerations
 3. Procedure
 1. Armamentarium
 2. Scanning of maxillary and mandibular arches
 3. Evaluation and manipulation of image
 2. Select the materials and armamentarium, and prepare, mix and pour a dental cast with no large irregularities or faults
 1. Types of dental plaster and stone
 2. Appropriate handling of material
 3. Armamentarium and disposable products for pouring study models

4. Infection control considerations
5. Safety precautions
6. Dispensing and mixing material
7. Loading tray with plaster or stone
8. Removal of study model from tray
9. Evaluation of study model
3. Trim a plaster/stone
 1. Preparation of model
 2. Safety precautions
 3. Trimming procedure
4. Describe composite, amalgam, partials, dentures, root canals, dental implants, crown and bridge dental procedures
 1. Amalgam procedures
 2. Composite procedures
 3. Crown and bridge procedures
 1. Prep appointment
 2. Cementation appointment
 3. Implant crown and bridge
 4. Endodontics
 5. Partial and dentures
5. Prepare tray set-ups for composite, amalgam, and crown and bridge dental procedures
 1. Amalgam
 1. Armamentarium and disposable products
 2. Composite procedures
 1. Armamentarium and disposable products
 3. Crown and bridge procedures
 1. Prep appointment
 1. Armamentarium and disposable products
 2. Cementation appointment
 1. Armamentarium and disposable products
 3. Implant crown and bridge
 1. Armamentarium and disposable products
6. Describe the common dental cements and restorative materials and describe their uses and limitations
 1. Types
 2. Indications
 3. Contraindications
7. Prepare and mix without assistance at a satisfactory level any of the commonly used dental cements or materials, as allowed and specified by legally defined duties. These procedures include but are not restricted to:
 1. Cement bases and liners
 1. Armamentarium and disposable products
 2. Procedure

2. Temporary and permanent cements
 1. Armamentarium and disposable products
 2. Procedure
3. Restorative materials for insertion
 1. Armamentarium and disposable products
 2. Procedure
8. Select and collect the materials and armamentarium, and prepare and/or mix without assistance final impression materials so that a satisfactory impression could be obtained
 1. Dental cements and restorative materials
 1. Liners
 1. Calcium hydroxide
 2. Glass ionomer
 2. Temporary cements
 1. Zinc oxide and eugenol
 2. TempBond
 3. Permanent cements
 1. Zinc phosphate
 2. Glass ionomer
 3. Resin cements
 4. Crown and bridge impression materials
 1. Polyether
 2. Polysulfide
 3. Vinylpolysiloxane
 1. Bite registration material
 1. Wax
 2. Polyvinylsiloxane cartridge and gun dispenser
 4. Composite
 2. Dental cements and material
 1. Temporary dressings
 1. Zinc oxide eugenol temporary restoration
 2. Bases and liners
 1. Mixing procedure
 3. Restorative materials
 1. Mixing procedure
 3. Final impression
 1. Polyvinylsiloxane
 1. Putty-wash technique
 2. 2-gun technique
 2. Pentamix
 1. Armamentarium
 2. Procedure
 3. Mixing study model materials
 1. Plaster

1. Water and powder ratio
 2. Mixing
 2. Stone
 1. Water and powder ratio
 2. Mixing
 3. Alginate impressions
 1. Types of impression trays
 2. Armamentarium
 3. Mixing process
 4. Impression procedure
 4. Matrix band selection
 1. Types
 2. Placement
 3. Wedges
9. Infection control and hazardous waste management
 1. Dental unit waterlines
 1. Plaque biofilms
 2. Flushing waterlines
 2. Perform set-up and breakdown of the dental unit
 1. Appropriate PPE
 2. Barrier placement
 3. Flushing waterlines and evacuation system
 3. Personal protective equipment
 1. Gloves
 1. Types
 2. Uses
 2. Masks
 1. Types
 2. Uses
 3. Protective attire
 1. Types
 2. Uses
 4. Cross contamination
 1. Types
 2. Prevention
 5. Instrument processing
 1. Decontamination
 2. Disinfection
 3. Sterilization
 6. Sharps and hazardous waste
 1. Sharps container
 1. Uses
 2. Hazardous waste
 1. Regulated waste

2. Unregulated waste
10. Ethical and legal principles
 1. Patient records
 1. Documentation protocols
 2. Medical/dental history
 3. Treatment record
 4. Confidentiality
 2. Professional behavior and appearance
 1. Policy and procedures
 2. Ethical code of conduct

Lab Content

1. Lab orientation
2. Sizing of alginate trays
3. Instrument assignments
4. Clinic equipment identification
5. Handwashing and PPE
6. Infection control video
7. Infection control set-up in clinic
8. Oral evacuation
9. Patient/operator positioning in clinic
10. Basic tray set-up
11. Local anesthesia syringe set-up
12. Instrument transfer in clinic
13. Rubber dam on typodont
14. Rubber dam in clinic
15. Matrix band and wedge(s)
16. Alginate impressions
17. Study models

Special Facilities and/or Equipment

1. Dental clinic
2. Patient dental chair
3. Operator and assistant stool
4. Sinks
5. Steam autoclave
6. Miele dishwasher/disinfector
7. Dental vibrator
8. Oral evacuation equipment
9. Air compressor

Need/Justification

This course is being created following recommendation by the Advisory board of dentists, for a soft skills and safety class to be taken by dental assisting students prior to externing in their office.

Course Description

This course is for students considering a career in the dental field. Introduction to communication, anatomy, terminology, equipment, and infection control procedures relevant to dentistry. Also includes time management, study skills and test taking strategies. Provides information concerning PPE related to COVID-19 and other infectious diseases as required safety measures when working in a dental environment.

Course Prerequisites

Course Corequisites

Course Advisories

Content Review

Content Review Attachments

Baccalaureate Institution Attachments

Statute and/or Regulation Attachments

Course Objectives

The student will be able to:

1. Effectively communicate with patients and colleagues
2. Create time management calendar and analyze time management to create a balance between classes, personal and other obligations
3. Develop effective study skills to prepare for competency evaluations and written tests
4. Recognize effective methods for preparing for lectures and evaluations
5. Recognize and utilize dental and medical terminology relevant to the practice of dental assisting
6. Recognize and identify common dental equipment
7. Perform appropriate and safe methods for infection control and PPE recommendations for COVID-19 and other infectious diseases

Course Content

1. Effectively communicate with patients and colleagues
 1. Electronic communication
 1. Professional email addresses
 2. Writing professional emails to other dental/medical professionals
 1. Appropriate terminology
 2. Inappropriate terminology

2. Verbal communication in the office and at school
 1. Communicating questions prior to exposing dental x-rays
 1. Using terminology that is familiar to the student and the patient
 2. Post-operative instructions
 1. Using terminology that is familiar to the student and the patient
 3. Conflict management/resolution with classmates and faculty
 1. Understanding the appropriate measures when having a conflict
 1. Student to student
 2. Student to professor
 3. Student communicating with internship office
 4. Inappropriate measures when having a conflict
 4. Request clarification for terminology when appropriate
 3. Telephone interactions
 1. Personal cell phone voicemail outgoing messages
 2. Personal phone etiquette
 3. Personal use of phone at work/dental office/internships
 4. Phone calls with patients and dental offices
 1. Confirming dental appointments
 2. Follow-up phone calls regarding dental treatment
 4. Zoom etiquette
 1. Appropriate behavior
 1. Attire
 2. Mute/unmute
 3. Stop or start video
 4. Zoom environment
 2. Break out rooms
2. Create time management calendar and analyze time management to create a balance between classes, personal and other obligations
 1. Document schedule for classes
 2. Document schedule for studying
 3. Document personal commitments
 4. Document work schedule
 5. Submit weekly schedule considering all mentioned above
 6. Learning styles
 7. Following instructions
 3. Recognize effective methods for preparing for lectures and evaluations
 1. Recognize required reading
 2. Use course materials for note-taking
 1. Preparing notes for evaluation purposes
 4. Develop effective study skills to prepare for competency evaluations and written tests

1. Written tests/evaluations
 1. Create strategies for studying of course materials
 2. Compare and contrast various types of exam questions
 1. True/False
 2. Multiple choice
 3. Multiple-multiple choice
 4. Short answer
 3. Test taking strategies
2. Create strategies for competency evaluations
 1. Lab skills evaluations
 2. Clinic skill evaluations
5. Recognize and utilize dental and medical terminology relevant to the practice of dental assisting
 1. Common medical and dental terminology
 1. Terminology relative to dental assisting
 2. Tissues of the teeth
 1. Enamel
 2. Dentin
 3. Cementum
 4. Pulp
 3. Periodontium
 1. Gingiva
 2. Periodontal ligament
 3. Alveolar bone

 2. Names and location
 3. Universal tooth numbering
 1. Permanent teeth
 1. Names and location
 2. Universal tooth numbering
 2. Mixed dentition
 5. Tooth surfaces
 1. Incisal/Occlusal
 2. Meisal
 3. Distal
 4. Lingual
 5. Facial
 1. Labial
 2. Buccal
 6. Tooth descriptors
 1. Thirds of the teeth/roots
 2. Long axis of the tooth

3. Parallel to the occlusal or incisal plane
6. Recognize and identify common dental equipment
 1. Common layout of dental offices
 1. Patient reception area
 1. Personnel and duties
 1. COVID screener
 1. Manage patient traffic
 2. Temperature
 3. COVID screening questions
 2. Equipment and items
 1. Chairs
 2. Touchless thermometer
 3. Hand sanitizer
 4. Extra masks
 5. COVID recommendations
 1. No paper products
 2. Magazines, books, posters or unlaminated postings
 3. COVID signage
 4. No toys
 2. Front desk/financial coordinator
 1. Personnel and duties
 1. Receptionist
 1. Appointments
 2. Medical consults
 3. Specialist referrals
 2. Insurance biller
 1. Pre-authorize for procedures
 2. Submit billing
 2. Equipment and items
 1. Plexiglass shield
 2. Paper charts
 3. Business equipment
 1. Computers and printer
 2. Fax machine
 3. Office phone
 4. Shredder
 5. Scanner
 3. Back office
 1. Staff break room
 2. Equipment and items
 1. Dental treatment areas/rooms
 1. Patient chair
 2. Operator and assistant stools

3. Bracket table
4. Computer/laptop and monitor
5. X-ray tube head
6. Rheostat
7. Overhead light
8. Sharps container
9. Sink
2. Sterilization area
 1. Sink(s)
 2. Ultrasonic cleaner/dishwasher-disinfector
 3. Heat sterilizers
 4. Washer/dryer
3. Darkroom or processing area
 1. Film developing or automatic processors
4. Dental lab
 1. Model trimmer
 2. Lab handpiece
 3. Dental vibrator
 4. Lathe
 5. Vacuformer
 6. CAD CAM
3. Designated areas
 1. Dental treatment areas/rooms
 2. Sterilization area
 3. Dental lab
 4. Restroom(s)
4. Personnel and duties
 1. Dental Assistant/Registered Dental Assistant
 2. Dental Hygienist
 3. Dentist
 4. Sterilization technician
4. Supporting equipment
 1. Air filtration system
 2. Nitrous/oxygen tanks and accessories
 3. Compressed air system
 4. Vacuum system
7. Perform appropriate and safe methods for infection control and PPE recommendations for COVID-19 and other infectious diseases
 1. Introduction to infectious disease important to the practice of dentistry
 2. Introduction to OSHA and CDC
 3. Personal protective equipment
 1. Hand hygiene
 1. Handwashing
 2. Hand sanitizer

2. Masks and respirators
 1. Types
 2. Placement and removal
3. Protective eyewear
 1. Types
 2. Placement and removal
 3. Decontamination and disinfection process
4. Protective clothing
 1. Types
 2. Placement and removal
 3. Decontamination and disinfection process
5. Donning and doffing personal protective equipment
4. COVID screening questions and protocols
 1. Faculty and student screening
 2. Patient screening
5. Respiratory protection plan
 1. Medical clearance for N95
 1. Completion of medical clearance questionnaire
 2. Fit testing for N95

Lab Content

1. Student participation with discussions
2. Oral communication with medical and dental terminology
3. Identification of teeth, tooth surfaces, tooth numbering, and other tooth descriptors
4. Identification of dental equipment
5. Note-taking
6. Performing lab evaluations
7. Handwashing and hand sanitization
8. Placement and removal of personal protective equipment
9. N95 respirator fit testing

Special Facilities and/or Equipment

1. Dental clinic
2. Patient dental chair with bracket table
3. Operator and assisting stools
4. Sinks
5. Steam autoclave
6. Instrument dishwasher/disinfector
7. Personal protective equipment
8. Hand sanitizer and hand soap
9. N95 respirator

Methods of Evaluation

Methods of Evaluation

Multiple choice weekly quizzes
Verbal communication assignments
Written assignments

Foothill College
Mini-Advisory Board Meeting
January 14, 2020

6:10 Meeting started

Present: Dr. Nabeta, Dr. McBirney, Dr. Vallee, Dr. Leclerc, Dr. A. Joy, Dr. C. Joy, Mary Conway, Dr. Barghouth, Dr. Pendurkar, Dr. Nix, Dr. Singer, Dr. Quo, Dr. Lee, Dr. Kung, Dr. Quo, Ram Subramaniam, Chris Allen, Lizzie Innes, Cara Miyasaki

1. Introductions
2. Brief update on current dental assisting program (educational pathway – accredited by the Commission on Dental Accreditation)
 - a. Review of handout for Advisory Board Meeting Feb 2020
 - b. Pass rate has dropped for Foothill students: still above average
 - c. No more practical exam, just combo law and ethics and national boards
 - d. Most students are ESL and speak 2-3 languages 91% this year
 - e. Tutoring hours increased to assist students beyond classroom hours
 - f. More applicants than in the past, when from 35-40 to 50 -52 applications
 - g. Increased marketing to help with enrollment/applications
 - h. Diverse population of students in program
 - i. 82% of students receive financial aid
 - j. This year many students from East San Jose but home locations vary from Newark to San Francisco. Last year student area from San Leandro to San Francisco.
 - k. Question: Male DA student, - None this year. Varies every year, last year 5 male students
3. Proposed dental assisting apprenticeship program – comparison to current program
 - a. Educational program 9 months versus apprenticeship program 15 months.
 - b. Educational program has 300 hours of unpaid internship required by CODA versus apprenticeship students will be paid dental employees (paid internship) for at least 2000 hours.
 - c. Educational program students can choose to work part-time usually for non-dental employers vs. apprenticeship students will be hired and work in dental offices simultaneously attending courses.
 - d. Educational program is CODA approved versus apprenticeship program will have the individual courses approved as stand-alone courses which are required for RDA work experience pathway. Along with completion of stand-alone courses and 15 months work experience the student can apply to take the RDA written exam. (This is a correction to the minutes – Cara mentioned the apprenticeship program would be approved by the Dental Board but this is an error – the classes/courses would be approved individually).
 - e. Educational program students 58.5 quarter units versus apprenticeship appx. 14.5 (not counting introductory chairside assisting to include dental terminology, tooth numbering, charting, appearance, soft skills, etc.)
 - i. List of certification courses for apprenticeship program include: Infection control and hazardous waste management, Dental Practice Act, x-ray licensing

- courses, and coronal polishing. Some of these courses may be taken simultaneously with the students in the educational pathway.
- ii. Will also include pit & fissure sealants although not required until first renewal can end up costing appx \$600 if take course from private educational company.
 - iii. Dentists voiced concern that students will not be prepared to immediately start working in a dental office without prior training. At suggestion of dentists, students should be required to take introductory course prior to working in dental office to include: dental terminology, safety, appearance/hygiene, soft skills, blood-borne pathogens and expectations of dental employees.
 - iv. Apprenticeship students could also take DA 85 RDA Review course for written exam and also include 3 hour labs for fabricating provisionals.
4. Similarities for both educational program and apprenticeship program
 - a. Cost of program (tuition, books, uniform, quarterly kit) for both appx. \$4000.00 compared to for-profit programs which are appx \$35,000.00.
 - b. Both sets students can qualify for financial aid i.e. Pell Grant, student loans and College Promise. College Promise pays for everything (except parking permit) for first two years of college if student has not attended college before. There is a possibility the apprenticeship students would not be required to pay tuition but right now this is not confirmed.
 - c. All students required to obtain a full physical exam, recommended immunizations, BLS/CPR certification prior to starting either program. The college has a private contracted health services department available, however, it is closed during the summer.
 - d. Apprenticeship students will be paid employees of the dentist/dental office.
 - e. Both sets of students can track their internship hours with a software called Trajecsys. Cost is \$75 per student. Currently being funded by Strong Workforce money from state. GPS tracks the apprentice and notifies the clinical supervisor in case the student is logging in or out and not actually at the office.
 - f. Both programs can be advertised by college's marketing and outreach department.
 5. Justification for proposed apprenticeship program
 - a. College data shows many students need to work while going to school. This information demonstrates a need for a different pathway for dental assistants.
 - b. Shortage of dental assistants in California does not seem to be getting any better.
 - c. Adding another dental assisting pathway may make the program more productive for the college and avoid program closure if district budget declines due to low overall enrollment.
 6. Overview of proposed apprenticeship program
 - a. Dentist/dental office would register with college to be a apprenticeship site.
 - b. Each dentist would interview each student and decide if they would want to have that student as an employee
 - i. Feedback from dentists: The dentist should meet and review the basic requirements of what the apprentice needs to learn. Should include calibration of dental office as minimal requirement to participate.
 - c. There is a probationary period, if not working out, students would "rotate" to a different office
 - d. The program faculty would visit the apprentice at the dental office on a regular basis
 - e. A schedule of work and classes needs to be established. Initial proposal for working Monday to Thursday. Classes on Fridays and some Saturdays.

- i. Feedback from dentists:
 - 1. Apprentice should not start immediately. Need initial training for safety, infection control, etc.
 - 2. Explore online or hybrid courses.
 - 3. Work ½ day and classes ½ day
 - f. There are allocated hours necessary for work processes/standards that need to be determined by feedback from the dentists present. The apprentice does not need to fulfill the hours exactly.
 - i. See sample work processes at end of agenda items
 - ii. Feedback from dentists concerning work processes/standards:
 - 1. Use CODA standards – see at end of minutes
 - 2. Other recommendations – see at end of minutes
 - iii. Feedback from dentists concerning preparation for RDA exam. The dentist can do the hands-on training but do not have any idea of what is on the RDA written exam. Program director response: The students could also take a RDA review class (DA 85) which has 1 hour lecture for review for the written exam and a 3 hour lab each week to teach fabrication of provisionals.
 - 1. Program director comments: The students have many resources from the program on information on the RDA exam. It seems that the students have difficulty with more sophisticated wording used on the RDA exam i.e. reciprocity, etc. (Post meeting – here are some other words students have difficulty with: inverting, aspirate, toggle, engage (the harpoon), debris, grasp, retrieve, align, long axis, increment)
7. Questions by attendees
- a. **Are there allied health apprenticeship program in California?** Traditionally apprenticeship programs are associated with construction and automotive careers. Nursing doesn't have an apprenticeship program because of its strict accreditation standards. The closest program is the Veterinary Assistant Program at Foothill College.
 - b. **Will the apprenticeship program be CODA approved?** No, the program courses offering certifications will be approved as stand-alone courses by the Dental Board of California.
 - c. **Funding/who pays?** The initial thought was to have students pay for their college courses but there is a possibility the fees may be waived. The college could apply for a grant (once the program is registered with the state) to pay for student fees and books because it is a non-traditional pathway and grant money may be available.
 - d. **Is the current educational assisting program at risk of lower enrollment because of the apprenticeship program?** That is a possibility and if enrollment is low for the current program the college could consider offering the program every other year and not completely eliminate the program.
 - e. **What is the timeline and what do we need to do to make this happen?** We are hoping to start Summer or Fall 2020. We mostly need feedback from dentists for curriculum requirements. All guidelines and classes need to be written and given to state. Subject matter experts who work for the dental board will review the material and approve/deny stand alone courses. Once work processes and hours are established we can sign a contract with the state apprenticeship department.
 - f. **So there is the office and the didactic, is there proficiency milestones that would be followed?** Students currently only evaluated for coronal polishing but more in-office proficiencies could be added. Post meeting note: weekly general evaluations are

currently being used for educational program. Suggestion: Would like students to be proficient in fabricating provisionals. Statement: Proficiently milestones are essential for this program, need licensure via portfolio. Need specific checklist dentist can follow. Can pictures of the final product be available?

- g. **Will students be able to rotate to specialty offices if they have an interest?** Most likely possible and could mimic medical students. Students go to specialty office but maybe for shorter rotation. Comment: Students having difficult time finding specialty offices, even as unpaid intern.
 - h. **How should dentist/dental offices be calibrated?** Note: needs further discussion/feedback?
 - i. In-office visit with clinical supervisor and dentist?
 - ii. Group calibration meeting?
 - iii. Other suggestions?
8. Apprenticeship schedule
- a. Program director proposed that apprentice works in dental office Monday to Thursday. Classes on Friday and some Saturdays.
 - b. Suggestion: Apprentice attends class ½ day and work in office ½ day.
 - c. Suggestion: Offer online classes to be more efficient
9. Salary
- a. Dentists need apprentice/program to know that the dentist/dental office will be spending appx 40k to pay the apprentice. Also, less production because dentist and office assistants are taking time to train apprentice.
 - b. Dentists in agreement that salary should start at minimum wage (for that city)
 - c. Wage increases are required by the state every six months. Dentists were in agreement should be 5% for each increase (standard and affordable)
 - d. A concern was expressed for current employees that don't received raises but now it's mandated for the apprentice.
 - e. Comment: salary increase should be based on achievement/competency. Achieving certain skills should be rewarded.
10. General suggestions
- a. Post a Youtube informational video to discuss the apprenticeship program versus the educational program.
 - b. Performance reviews every 3 months be considered? You need some "calibration" and feedback, so they can fix issues before they grow bigger.

Suggestions for Work Processes – Note: needs further discussion and feedback

CODA STANDARDS – only included clinical chairside skills.

ESSENTIAL DENTAL ASSISTING SKILLS

- a. Take/review and record medical and dental histories
- b. Take and record vital signs
- c. Assist with and/or perform soft tissue extra/intra oral examinations
- d. Assist with and/or perform dental charting
- e. Manage infection and hazard control protocol consistent with published professional guidelines
- f. Prepare tray set-ups for a variety of procedures and specialty areas
- g. Seat and dismiss patients
- h. Operate oral evacuation devices and air/water syringe
- i. Maintain clear field of vision including isolation techniques
- j. Perform a variety of instrument transfers
- k. Utilize appropriate chairside assistant ergonomics
- l. Provide patient preventive education and oral hygiene instruction
- m. Provide pre-and post-operative instructions prescribed by a dentist
- n. Maintain accurate patient treatment records
- o. Identify and respond to medical and dental emergencies

CHAIRSIDE ASSISTING FUNCTIONS

- a. Assist with and/or apply topical anesthetic and desensitizing agents
- b. Assist with and/or place and remove rubber dam
- c. Assist with and/or apply fluoride agents Dental Assisting Standards -20
- d. Assist with and/or apply bases, liners, and bonding agents
- e. Assist with and/or place, fabricate, and remove provisional restorations
- f. Assist with and/or place and remove matrix retainers, matrix bands, and wedges
- g. Assist with and/or remove excess cement or bonding agents
- h. Assist with a direct permanent restoration
- i. Fabricate trays, e.g., bleaching, mouthguard, custom
- j. Preliminary impressions
- k. Clean removable dental appliances

FOOTHILL COLLEGE
College Curriculum Committee
Proposal to Create New Ad Hoc Committee: Instructional Program Creation Process

Committee Details

Name: Instructional Program Creation Process

CCC & Academic Senate Co-Chairs: Eric Kuehnl & Kathryn Maurer

Co-Chaired with the Office of Instruction: Kurt Hueg

Background

The creation of our new governance structure a few years ago resulted in the need to establish a new instructional program creation process due to the loss of PaRC, the body which used to ensure college-wide input into and approval of new program creation after College Curriculum Committee (CCC) approval, and prior to submission to the FHDA Board of Trustees for approval. The Presidents of the Academic and Classified Senates (faculty and staff), who were serving as Advisory Council tri-chairs at the time (2017), created a [Temporary Program Creation Process](#) for faculty to follow while a permanent process could be established.

Charge

This committee will review current policies for program creation as well as the temporary process mentioned above, analyze what is working well and what needs improvement, and draft a (permanent) Instructional Program Creation Process, to be reviewed and approved by CCC, the Academic Senate, the Office of Instruction, and the Advisory Council. This procedure should also include mechanisms to identify and evaluate potential district-wide impacts of program creation, and specify the points and mechanisms by which the two colleges will communicate and address any concerns.

For purposes of the scope of this committee, we are using the following definition of “instructional program”: any degree or certificate submitted to the California Community Colleges Chancellor's Office for approval/chaptering, including noncredit certificates; and any non-transcriptable credit certificate.

The committee acknowledges that a separate *non-instructional* (student services/support) program creation procedure also needs to be developed, but is beyond the scope of this charter.

Membership

Any full- or part-time Foothill faculty member is welcome to volunteer. Priority will be given to faculty who are current or past members of CCC and/or the Executive Committee of the Academic Senate. Additionally, the committee welcomes any student, staff, or administrator appointed by CCC to the committee.

The target size for the committee is 4-6 members, with a minimum of 4 and a maximum of 10 (for scheduling purposes), and a minimum of 50% of the committee members being faculty.

Structure

The CCC faculty chair and the Academic Senate President will co-chair the committee together with the Office of Instruction. The faculty co-chairs will schedule and convene meetings and

manage the creation and execution of a work plan. The Office of Instruction will facilitate the gathering of all relevant documents and support the committee with needed data. All members will help identify and review documents, gather input and feedback as needed, and help draft the new process. The committee will work both synchronously with regular meetings (likely every two weeks) and asynchronously (via a shared online workspace). The committee will bring their work to CCC first for discussion and approval, and then to the other bodies.

Time Frame

Appointments to the committee will begin on April 20, 2021, and work will begin immediately and end with the formal approval by all bodies, with a target date of June, 2021.

Draft
