 - “Help districts and colleges successfully implement state law and regulations that call for effective participation by faculty, staff and students in district and college governance.”
- 3 “levels” of assistance – we are asking for level 1
 - EFFECTIVE PARTICIPATION FUNDAMENTALS

What the visit will cover/do

- A 2-hour presentation
 - basic overview of the state law, state regulations and guidelines concerning shared governance.
 - Handouts are provided, good practices highlighted and questions answered
- Co-presented between ASCCC & CCLC
- Tailored to our specific needs/concerns
 - Interviews with College & AS Presidents
 - Survey being sent to all participants

Academic Senate's rationale for the visit

- Clearly identify *how* decisions are being made, *who* is making them, *when* they have to be made; and *what information* they're relying on to make those decisions;
- Ensure decisions with a "10+1" scope and/or legal mandate for inclusion of the Academic Senate are being "brought" to Senate – avoid conflict from sense of infraction/intrusion into faculty *primacy* and conflict from exclusion of faculty (Senate) in any 10+1 decisions;
- Strengthen shared/participatory governance and stakeholder involvement in decision-making
- Correct the misrepresentation of Academic Senate's role in governance, and the role of Senate-appointed reps on the councils.
