Re: Strategic Objectives for 2018-19 (1 ATTACHMENT)

At the Governance Summit, all four committees will be requested to recommend approval of the annual Strategic Objectives for 2018-19. The Council will serve as the governance committee to monitor the institutional effectiveness of the Strategic Objectives.

The purpose of the college's Strategic Objectives is to operationalize the Educational Master Plan on an annual basis – enabling the college to make progress toward implementing its Educational Master Plan and have an accountability mechanism. The Strategic Objectives also serve as a framework to prioritize college resources and workflow for the year, thus providing organizational focus and direction.
