Re: No Additional Hiring Holds

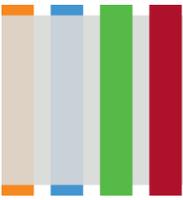

The College Advisory Council and Revenue and Resources Council jointly and unanimously recommend that the college move forward with no additional hiring holds.

Specifically:

- That the college move forward to hire for all planned administrative positions, with the exception of the LRC dean position that is already placed on hold
- That the college move forward to hire all for all planned classified positions.

We recognize that hiring for classified positions in Kinesiology should be held until there is a path for scholar athletes to return to campus, and we will address these positions as soon as that path is clear.
