SLI Opportunities

P

MESA (Mathematics, Engineering, and Science Achievement) produces a diverse population of transfer-ready students to advance their STEM educational journeys in 4-year university programs.

Benefits of Being a MESA Scholar

- support in your academic path at Foothill
- become part of a community of MESA scholars
- academic workshops and tutoring customized for MESA Scholars
- access to free textbook vouchers, laptop and wifi hotspot loaners, free learning materials, and more
- field trips to local companies, conferences, and transfer campuses

Check eligibility and apply here!

E

**Tues Sept 19
2:00 pm - 3:30 pm**

Join SLI, the STEM Division, and all STEM departments in an event where you can get a chance to meet faculty and students in STEM at Foothill. There will be snacks, free t-shirts and swag, and a raffle for all those who attend - prizes include an iPad, giftcards, and other fun items!

Foothill Opportunities

Summer Bridge Math Program

P

**Tues 9/5 - Fri 9/15
9:00 am - 11:20 am**

This program is designed to boost your Math confidence and improve your Math skills so that you'll be prepared to move on to the next level of math courses.

- Review and improve your math skills in a FREE seminar
- Increase your confidence in Math
- If you are taking a math class at Foothill in the fall quarter, we will pay for any required access code and lend you any other required materials.

The Physics Show

J

**Mon 9/11- Thurs 9/14
Various Times - See [website](#)**

The Physics Show is an educational and interactive event where magic meets physics meets entertainment, making physics fun and approachable for children of all ages.

We need help during the week to help keep kids organized, hand out t-shirts, supervise the lunch area, and just make sure this is a safe and fun event.

The Tech Interactive

Inclusive R&D Paid College Intern

Mon 9/11- Thurs 9/14
Various Times - See [website](#)

You will map local career pathway opportunities from high school through career and will also help develop, test and iterate communication tools targeted for local youth and educators about these pathways.

This work will be most successful by engaging college students with **lived experience similar to our target audience**—those who have personal experience with limited access to career exploration experiences, resources.
