Foothill College Faculty and Staff Accreditation Survey
Overall Observations, Foothill Research, November 2010

Survey Administration

The faculty and staff survey was developed in conjunction with De Anza College to provide evidence of employee perceptions of the colleges for the accreditation self-study process. The initial questions were based on those questions asked in the 2004 Accreditation Survey, with additions and modifications made by both Foothill and De Anza College administrators, faculty, staff, and students. Many of the modifications strove to follow the Accreditation Standards provided by the Accrediting Commission for Community and Junior Colleges (ACCJC). The Foothill College survey was reviewed and approved by the shared governance process (Academic Senate, Accreditation Committee, Administrative Council, Associated Students of Foothill College, Classified Senate, and Planning and Resource Council) in Fall 2010.

The survey was administered electronically during the last week of October 2010. An email was sent to all employees from President Judy Miner with a link to the survey site. The shared governance organizations, such as Faculty and Classified Senates, made verbal and or electronic announcements about the survey.
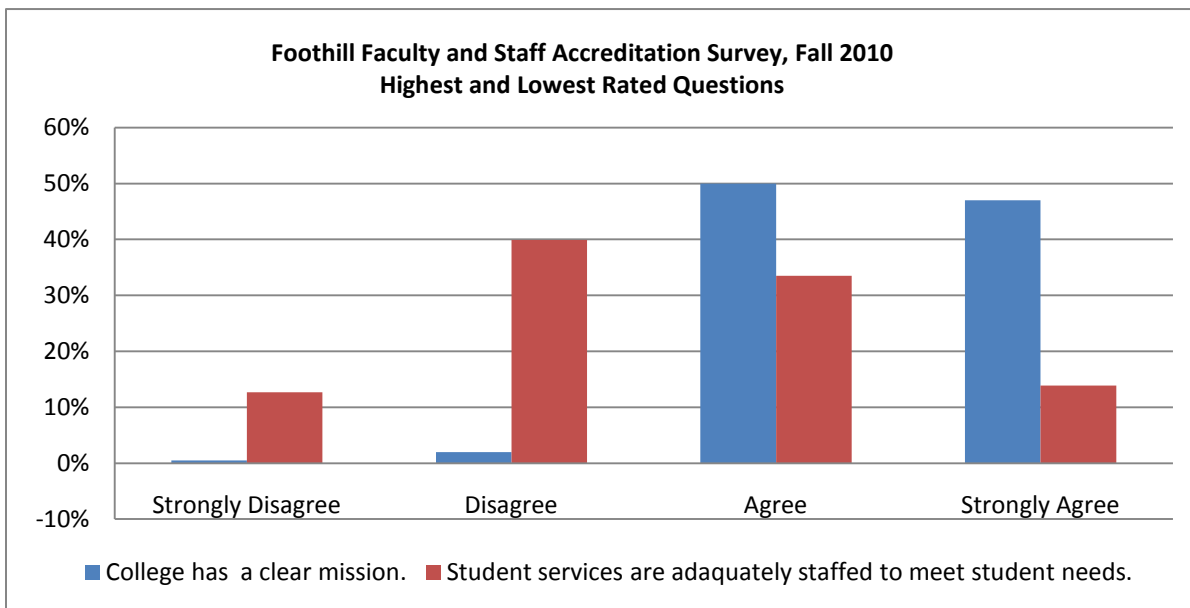

General Observations

Two hundred three Foothill College employees responded to the survey. Classified employees represented 22% of respondents, with full-time faculty representing about 35% of respondents. Overall, full and part-time faculty represented 70% of total respondents. Almost half of the respondents (46%) have worked at the College for 11 or more years. Total respondents represent a 54% response rate from 373 employees.

The survey had 44 questions in four primary sections: Institutional Mission and Effectiveness, Student Learning Programs and Services, Resources, and Leadership and Governance. Survey respondents were asked about their degree of agreement with each statement and the scaled responses included Strongly Agree, Agree, Disagree, Strongly Disagree and Don't Know/Doesn't Apply. There were also two demographic questions and one open-ended question at the end of the survey for comments and suggestions. The largest number of questions (15) related to Resources. For reporting purposes, the Do Not Know/Doesn't Apply responses and the non-responses were subtracted from the final tallies of each question to get a more accurate representation of the difference between the valid responses and the total responses.

Within the Institutional Mission and Effectiveness section, "the college has a clear mission" received the highest mean score rating while "institutional planning is broad-based" received the lowest mean score. "High-quality instruction" received the highest mean score in the Student Learning Programs and Services section, while "student services adequately staffed" received the lowest mean score. In the Resources section, "commitment to diversity" received the highest mean score rating while "financial management system creates appropriate control mechanisms" received the lowest mean score. Lastly,

in the Leadership and Governance section, the "Board of Trustees establishes broad institutional policies" received the highest mean score, while "effective communication at the college" received the lowest mean score.

Subject: Accreditation Survey

In preparation for our upcoming accreditation site visit in 2011, the Office of Institutional Research and Planning is conducting a faculty and staff survey to inform our work on the self study document. It is critical that all faculty and staff members complete the survey to ensure the data is accurate. The information gathered from the survey will be crucial to the self-study teams as they complete their first drafts this fall.

The survey will be available through Monday, Nov. 1, 2010. It should take you 10-15 minutes to complete. Your responses are anonymous, confidential, and will only be reported in the aggregate. Participation is not mandatory and you may skip questions you do not feel comfortable answering. However, your participation is crucial.

You will find the survey at the link listed below:

If you have any questions please do not hesitate to contact Elaine Kuo, College Researcher, at kuoelaine@fhda.edu.

Thank you in advance for your participation in this very important survey.
